

It is passing into a proverb that being defeated for office makes many a man a patriot.

FIFTEEN THOUSAND Republicans scratched Rev. John Wesley Asbury at the late State election.

HALF the people of Virginia are kept busy all the time trying to keep the other half from fighting duels.

It is true that "the early bird catches the worm," some of the candidates for municipal offices will have to go to taking vermifuge before long.

The telegraph companies, in dealing with their striking operators, have exemplified the old expression, "come back, and all will be forgiven."

The News Journal should not object to being swallowed by the Enquirer, for by getting a view of the inside workings of that great journal it might learn to make a newspaper of itself.

PROBABLY the Louisville Commercial is kicking about a little notice of Judge Black, which a visitor clipped for our columns and sent up stairs while the editor had stepped out upon Mill Street to see whether local option had got to town, or not.

The Cincinnati News Journal "denies" the story that it is a Jonah which is soon to be swallowed by the Enquirer whale. The News Journal may not be a Jonah, but so far it has displayed very few indications of being a Mascotte.

THERE are some queer rumors afloat in reference to one of the races in the contest for municipal officers, which would make mighty interesting reading. If, after investigation, we find these rumors to be well founded, we will report them.

CENTRAL Kentucky has been suffering from a severe drought, and the people are suffering from the lack of water. The drought is the worst in many years, and the people are suffering from the lack of water.

RETURNS of the late election have been received at the office of the Secretary of State from all the counties except Martin, which is usually a month or two behind with her returns. In 1879 Martin County went Republican by 125 majority. Knott's majority, in round numbers, is 44,500. Blackburn's majority was 43,900, in round numbers.

COL. BILLY O'BRADEY is now packing his valise preparatory to seeking the seclusion which Colorado grants. His able efforts to redeem Kentucky and his masterly financial records, instead of demolishing the Democratic party in Kentucky, reacted like a boomerang and added about a thousand votes to the already large Democratic majority.

JOHN KELLEY has written a letter to Hon. M. K. McGrath of Chicago, in reference to the old ticket. He says: "Should the old ticket be nominated it will be supported with as much vigor and effort as that made in 1876 by us." Popular sentiment is evidently in favor of the old ticket, and Tilden may yet have the pleasure of "kicking the rascals out."

THE Louisville Commercial says that increased wealth is blessing all the South except Kentucky. It is a fact, however, that Kentucky is enjoying a largely increased and constantly increasing share of material prosperity. It does seem odd that the gang of fellows who can find nothing in Kentucky that pleases them don't take up their bed and walk off to some other place.

GEN. WILLIAMS may think that Hon. J. C. S. Blackburn will cause him merely a momentary annoyance in his race for the United States Senatorship this Winter, but we wish to request him right now to jot down in his note book in red ink that if Captain Blackburn is not elected to the Senate, he can name the man—and the initials of his name won't be John S. Williams, either.

THE canvass for the Mayoralty is beginning to take a definite shape. Dr. Doug Price is a candidate, and Mayor Claude M. Johnson will be. A strong pressure is also being brought to bear upon Councilman James M. Graves to become a candidate for the position, but he is undecided about it. Other heads will pop up in a few days, and a number of them will pop off next March when the election comes.

EVERY citizen of Kentucky is invited to be present at the inauguration of Governor Knott next Tuesday. Frankfort spreads herself wide open, and will make room for all who may attend. It will be the grandest inaugural ever held in Kentucky. The people seem to know by instinct that Knott will be a Governor of a different style from any the State has had for a very long time, and they are instinctively impelled to make unusual demonstrations about it.

#### A Dead Shot

May be taken at liver and bilious disorders with Dr. R. V. Pierce's "Pleasant Purgative Pellets." Mild yet certain in operation; and there is none of the reaction consequent upon taking severe and drastic cathartics. By druggists.

It is reasonably sure that Lexington will soon have an evening daily paper. The city presents a fair field for such an enterprise.

THE editor of the Carlisle Mercury says he is not an applicant for the position of Secretary of State, but that he could be induced to accept it. He cast the vote of Nicholas County for Knott in the Convention.

KENTUCKY politics are stagnating. Things politic in this State are so one-sided that the trigger-work is all done within the winning side, and not enough of the secret work ever leaks out to make matters interesting to the people at large.

THE Covington Commonwealth holds Governor Knott responsible for the magnificent scale upon which the people of Frankfort are preparing for his inauguration. The Commonwealth is a bold, outspoken paper, but is rather an over-righteous kicker at times.

It is beginning to be bruited abroad that the Democrats have a living chance to carry Iowa this fall. The sturdy Iowa farmers have been holding weekly meetings at the country school houses for a year or two and debating the tariff question among themselves. This accounts for the milk in the cocoanut.

SOME of the papers accuse Mr. McLean, of the Cincinnati Enquirer, of being a boss. There is no denying the fact, say what you may, that the Enquirer has done the Democratic party in the Northwest more good and made it more converts than all the other Democratic papers combined. It is the only Democratic newspaper that the Republicans will read, and sooner or later it converts them to Democracy.

Mr. Jake Hostetter gave a burgo yesterday in his woods, which was attended by Governor Blackburn, Hon. J. C. S. Blackburn, Hon. J. Stoddard Johnston, and other prominent gentlemen, together with numerous other lesser lights. Speeches were made and a good time generally had.

KENTUCKY Association Fixed Events. The nominations for the Kentucky Association fixed events (1885) are closed with the following number of entries: Phoenix Hotel States, 41; Ashland Oaks, 36; Blue Ribbon States, 38; Viley States, 40; Kentucky Stallion States, 28. For the three-year old stakes, spring meeting, 1885, there are ten entries.

THE Orphan Brigade. The local committee to arrange for the Reunion of the First Kentucky Confederate Brigade in this city, on September 5th, met last night and effected a permanent organization. Major Joel Higgins was elected Chairman of the committee, and Jacob Sandusky Secretary. Major Higgins and Dr. B. W. Dudley were appointed a committee to secure reduced rates on the railroads, and John T. Hawkins was appointed to attend to the printing of badges, registration, &c., and Major Higgins was appointed to secure music. Jackson Hall was chosen as the place of holding the Reunion, and a proposition of Mr. Simonds to feed the veterans at fifty cents per meal was accepted.

It was announced that Hon. J. C. S. Blackburn had consented to deliver an oration at the grave of Gen. Roger Hanson on the afternoon of the Reunion, at which time the members of the brigade will march out to the Cemetery to decorate the graves of Gen. Hanson, Gen. Breckinridge, and other members of the command.

The Committee decided not to solicit aid in defraying the expenses of the meeting, but announce that any person desiring to assist them may do so by leaving their contributions with Mr. Jacob Sandusky at Baker & Mason's, No. 13 Cheap-side.

#### North American Review.

THE North American Review for September is an admirably constituted number, whether we regard the timeliness and importance of the subjects presented, or the eminent competence of the authors chosen for their discussion. First comes "State Regulation of Corporate Profits," by Chief Justice T. M. Cooley, of Michigan, showing how far, by wise legislation and by applying in the spirit of enlightened jurisprudence the principles of the common law, the harrowing exactions of corporate companies and monopolies in general may be restrained and the interests of the people effectually conserved. John A. Kasson, M. C., writes on "Municipal Reform," and offers suggestions for the abatement of the evils of misgovernment in our great municipalities that will command the earnest interest of all good citizens without respect to party. Richard Grant White treats of "Class Distinctions in the United States," a subject that is destined to occupy more and more the attention of the American people as great fortunes increase. "Shooting at Sight" is the subject of some pertinent reflections by James Jackson, Chief Justice of the State of Georgia. In "Facts about the Caucus and the Primary," George Walton Green unveils the tricks practiced by political managers in large cities. The well known English essayist, W. H. Mallock, contributes "Conversations with a Solitary," in which he sets forth with much ingenuity the arguments adverse to popular government. The Rev. Dr. D. S. Phelan contributes an article sparkling with epigrams, on the "Limitations of Free-thinking." Finally, Grant Allen, the most charming of all living writers on natural history, discourses on "An American Wild Flower." Published at 30 Lafayette Place, New York, and for sale by booksellers generally.

Horsford's Acid Phosphate in Liver and Kidney Troubles. Dr. O. G. CILLY, Boston, says: "I have used it with the most remarkable success in dyspepsia, and derangement of the liver and kidneys."

#### Fire in Mt. Sterling.

On Tuesday night Reed & Pearsall's big steam tannery in Mt. Sterling was completely destroyed by fire. Loss about \$15,000; insured.

#### Jail Fied.

Yesterday afternoon a prisoner in one of the lower cells of the jail at Nicholasville set fire to the building with the view, it is supposed, of making his escape. The fire was extinguished before any material damage was done, and none of the prisoners got away.

#### Arrival of Horses.

The stable of Messrs. Powers & Son arrived at the Race Track yesterday morning. Among the lot are Aztec, Armino, a filly by Aramo, dam Experience Oaks, and one by Prince Charles, Mr. Swiger's recent purchase. They will be handled by Lee Paul and will take part in our coming races.

#### The Big Inauguration.

Invitations to attend the inauguration of Governor-elect Knott will be sent to the President and his Cabinet, the Governors of all the States, to many representative men in each political party, and members of Congress, the Legislature, Mayors of cities, etc. The number of invitations sent out will exceed 1,000.

#### Kentucky's Corn Crop.

The Washington Agricultural Department report for August places the average corn crop of Kentucky at 97 per cent. of a perfect crop. This is better than that of any surrounding State. Ohio is 89, Indiana 95, Illinois 86, Tennessee 89. The yield is estimated at 25 bushels per acre, and the total yield of the country at seventeen hundred million bushels.

#### Capt. Kidd's Sale.

There was a fair attendance at Capt. Kidd's sale of Shorthorn cattle and fine sheep yesterday. Seventy-two head of Shorthorns of unfashionable breeding brought an aggregate of \$5,855, an average of \$132. One hundred and thirty-three head of sheep brought an aggregate of \$1,287.

deputies yesterday brought G. W. S. Henderson to the jail in this city for safe-keeping. Henderson was sentenced to be hanged for murder at the late term of the Carter Circuit Court, and the day of his execution was fixed upon the 9th of November next. The Carter jail is very insecure, and it was feared that he would either escape from it or be rescued by his friends.

#### Recovered.

Mr. Benjamin Crawford, whose house was entered and robbed by burglars some two weeks ago, received a letter yesterday from a transportation agent in Cincinnati stating that Mr. Crawford's memorandum book, letters, &c., which had been stolen from him on the night of the burglary, had been found in a car loaded with staves at the Cincinnati Southern depot in Cincinnati. The theory is that the thieves boarded a freight train, and stole a ride to Cincinnati that night after robbing Mr. Crawford.

#### Kentucky Inventors.

Patents were issued yesterday to the following Kentucky inventors: S. R. Ames of Louisville, for a whistle-tree. M. L. Ballard of Georgetown, for a bottle-stopper. S. M. Furman of Henderson, for a surgical bandage. Frederick Stitzel of Louisville, for a car-coupling. Also, to Geo. C. Gordon of Moundsville, W. Va., for a mill-stone driver.

#### Contested Seats.

We will likely have two contested seats in the Legislature. R. Y. Thomas Jr., the gallant young editor of the Muhlenberg Echo after a race, was only beaten by 30 votes, and more than that number received by his opponent are alleged to have been fraudulent. In Greenup County, Warnock, Democrat, was beaten three votes by Green, Republican. It is alleged that at one precinct the Judge and Clerk of election were near kinsmen of Green, and tore up Warnock votes, refusing to record them. If this can be established, Warnock need have no fear of not getting his seat.

#### The Fayette County Social Club.

Invitations are out for the Fayette County Social Club hop, which will be given at Jackson Hall the 29th and 31st of August. The Floor Committee for Wednesday evening will be R. D. Williams, A. G. Morgan, Will Seare, F. A. Harrison, R. L. Bowman, C. W. Kimbrough, E. B. Hayman, R. H. King, Jas. D. De Long; and for the second night the Committee will be M. C. Allord, H. E. Innes, Robert Swiger, J. W. Sayre, C. H. Edge, Will McDowell, W. Hughes, J. A. Lail, Claude Higgins. This will doubtless prove one of the most pleasant entertainments ever given in Lexington. Those who are getting it up know no such word as fail, and will not stop work until a glorious success is assured.

#### Cincinnati in Lexington.

Cincinnati Day at the Fair promises to be immense. Gen. Gentry has just returned from Cincinnati and brings favorable reports from that city. Mayor Stephens received Gen. Gentry kindly and extended every courtesy possible to him. Mayor Stephens assured Gen. Gentry that he and the various city officials would be on hand and that a very large delegation of Cincinnati would come over on that day. The Cincinnati Southern will run three extra trains that day, as will the K. C. Col. W. W. Peabody, President of the Cincinnati Exposition, and J. D. Parker, President of the Chamber of Commerce, will also be on hand that day with other officers of the Exposition. The Mayor of Covington, Mr. R. A. Athey, and the officials of that city will join the Cincinnati delegation. There will be not less than 15,000 people in Lexington on the Cincinnati Day. The Fair promises to be a grand success, thanks to the very efficient management it has had this year.

#### De Chambord Dead.

VIENNA, August 24.—Count de Chambord died at 7:10 this morning.

#### PERSONAL.

Miss Lizzie Marshall of Frankfort is visiting in the city.

Mrs. T. E. Thornton of Midway is visiting Mrs. Will Graves in the county.

Mr. J. C. Kleber, with the Dennett Harvesting Machine Company, is in the city.

Mrs. T. L. Johnson and two daughters have returned from an extended trip to the country.

Hon. W. W. Culbertson, Congressman elect from the Ninth District, has been in the city this week.

Mr. C. J. Myers and wife and Miss Vio Elder left last night over the C. and O. for a trip to New York.

Hon. J. Soule Smith has returned from Denver, and is now prepared to tell you lots of wild Western jokes.

James Ginn, Esq., a prominent business man of Carrollton, Ky., is in the city, visiting his relative, Col. B. P. Connell, on North Broadway.

Misses Jennie and Delia Richardson of this city are visiting the family of Hon. W. W. Culbertson, at Ashland, Ky., and a party will be given there to-night in their honor.

Mr. Benjamin Crawford and J. S. Keller, of the Kentucky Union Railway office, leave to-day for a three weeks' trip into Eastern Kentucky on the line of their prosperous road.

Mr. W. Clifford Elliott, a prominent telegraph operator of Cincinnati, was in the city yesterday. We are sorry to hear that he is afflicted with the terrible palsy so well known by telegraph operators.

Mr. W. H. Gentry, President of the Kentucky Agricultural and Mechanical Association, Lexington, is in the city to-day, making arrangements for a large attendance from here to the Fair next week.—Covington Commonwealth.

Mr. A. L. Sidow, general agent for the Dennett Harvesting Machine Company, of Milwaukee, Wis., is in the city, stopping at the Phoenix Hotel. "Sid" is the "most innocent man on the road," and does more good ground and do more

several days on business connected with Col. Delph's Land Agency, returned to their home on Wednesday. They leased for three years the fine home, Spring Hill, of Mrs. Hart, near Versailles. We congratulate the people of Woodford in their good fortune in being able to claim as citizens these elegant and really charming people.

#### Bad Case of St. Vitus Dance.

Minister is the singular name of a town situated in Auglaize County, Ohio. It is the residence of Mr. J. Brandewie, who writes: "Samaritan Nerve permanently cured my son of a bad case of St. Vitus Dance." \$1.50.

#### Street Railway Extension.

The rails for extending the Street Railway from Main up Broadway to Sixth Street have been received and scattered along a part of the line. This is a good indication that the line will be built shortly.

#### Pardons.

We learn that there were about six hundred people in Frankfort Wednesday applying to the Governor for pardons of various kinds for their friends, and it is expected there will be fully a thousand a day from now until Knott comes in.

#### Lawn Tennis.

"Lawn Tennis" is rapidly coming to the front as the national game for ladies and gentlemen. It is represented to be a very pretty game, and quite as costly as pretty, as it must be played in uniform, and a pair of "Tennis shoes" alone costs from \$17 to \$20.

#### Another Ox Gored.

"Eight murders in Cincinnati last week" was the heading of a dispatch in one of our exchanges. Had these tragedies occurred south of Mason and Dixon's line the Northern papers would have made a great sensation about Southern barbarism. As it is, no comment is made.

#### Malaria.

PORTSMOUTH, August 23.—Malaria has appeared at several New Hampshire beaches and many people are ill. Lewis Wetherby, a Philadelphian, died in his cottage of malignant typhoid fever yesterday. His servants and family are ill. Defective drainage is supposed to be the cause of the trouble. Mrs. Ward, a hotel guest, also died at Rye Beach.

#### The Same Old Story.

NEW YORK, August 23.—Elizabeth Cannon, twenty-eight years old, was shot through the head and instantly killed in her apartment, 466 Eighth Avenue, this morning by George Beatty, forty-four years old. After killing her Beatty shot himself through the heart and fell dead across her body. The cause of the murder and suicide is unknown.

#### Railroad Earnings.

PHILADELPHIA, August 23.—The official statement of the business of all the lines of the Pennsylvania Railroad Company, east of Pittsburgh and Erie, for seven months of 1885, as compared with the same period of 1882, shows an increase in the net earnings of \$174,345. All the lines west of Pittsburgh and Erie for seven months of 1885 show a surplus over all liabilities of \$309,690, a decrease as compared with the same period of 1882 of \$45,340.

#### Druggists Take Notice.

The Supreme Court of Pennsylvania having sustained the District Court of Allegheny County, granting to R. E. Sellers & Co. the exclusive right to the "trade mark" "Blood Searcher" (registered at Washington, D. C., December 11, 1876), our name will be printed on all outside wrappers. Any one selling, or offering for sale, any "Blood Searcher" without bearing our name will be prosecuted to the full extent of the law. (The penalty is \$1,000 fine and two years' imprisonment.) R. E. SELLERS & Co., Proprietors, Pittsburg, Pa.

Memphis is unable to decide which is the worse—the water or the whisky.

## SKIN HUMORS

Wonderful Cure of a Lad 12 years old, who for 8 years, from the Top of his Head to his Ankles, was One Mass of Scabs.

My son, a lad twelve years of age, was afflicted with the worst form of Eczema for a period of eight years. So violent was it that from the top of his head to within a few inches of his ankles he was one mass of scabs, which refused to yield to any treatment that was attempted. Every remedy that was suggested by friends or physicians was tried in vain. Alopecia, homoeopathy, herbs, roots, salt-water baths, flax seed poultices, soaps, ointments, and in short everything that could be done to eradicate the disorder seemed only to aggravate it, and the child's life became a burden to him, and the expense of the various experiments was a constant drain upon our resources.

My wife, reading the advertisement of the Cuticura Remedies in one of the daily papers, resolved to make one more attempt at a cure. (The disease was now encroaching upon his face, and seemed incurable.) I gave a reluctant consent to the proposal, and an interview was sought with a famous physician of New York, who made a most thorough examination of the case, and promised a cure without the least hesitation by the use of Cuticura Remedies. In one week there was a marked change; the raw and angry sores began to grow pale and along the outer edges scaled off, and as time wore on, they began to disappear entirely, until at the present writing the only vestige is one small spot upon the forehead, scarcely visible and fast disappearing.

Thus after eight years of expense and anxiety, we have the intense satisfaction of seeing the child's skin as fair and smooth as it was before this dreadful cutaneous disorder attacked him.

Sincerely yours,  
CLARK BAYNE HINKLE.

249 Fairmount Ave., Jersey City Heights, N. J.

Childhood and youth are the periods when such diseases yield most readily to those anafiling Skin and Blood Specifics. Cuticura Resolvent, the new Blood Purifier, and Cuticura and Cuticura Soap, the great Skin Cures. Price of Cuticura, small boxes, 50 cts., large boxes, \$1.00. Cuticura Resolvent, \$1.00 per bottle. Cuticura Soap, 25 cts.; Cuticura Shaving Soap, 15 cts. Sold by all druggists.

Potter Drug and Chemical Co., Boston.

## BABY BEAUTIFIER

For Infantile and Birth Humors, Rough, Chapped, or Greasy Skin, Nettle Rash, Pimples, and Blemishes, use Cuticura Soap, an exquisite Skin Beautifier, and Toilet, Bath, and Nursery Sanative. Fragrant with delicious lower odors and Cuticura balms. Absolutely pure, highly medicinal. Indorsed by physicians; preferred by the elite. Sales in 1881 and 1882, 1,000,000 cakes. Also specially prepared for Shaving.

For the relief and prevention of the instant it is applied, of Rheumatism, Neuralgia, Sciatica, Coughs, Colds, Warts, Bores, Itch, and all kinds of Skin Diseases, use Cuticura Soap, an exquisite Skin Beautifier, and Toilet, Bath, and Nursery Sanative. Fragrant with delicious lower odors and Cuticura balms. Absolutely pure, highly medicinal. Indorsed by physicians; preferred by the elite. Sales in 1881 and 1882, 1,000,000 cakes. Also specially prepared for Shaving.

## READING NOTICES.

## Street Talk.

"How much better you look, Mr. S." "Yes, I have gained 32 pounds on Hall's Catarrh Cure. Have not felt so well in 20 years. It has made a complete cure and is worth \$50 a bottle to any one that has the Catarrh."

## From the Proud Standpoint

Of superior "style," the languid city beauty surveys the imaginary physical shortcomings of her rustic female cousin. Yet if the latter possess a finer set of teeth, as she probably does if she uses SOZODONT, and the metropolitan belle does not, that striking contrast so much in her favor enables her to turn the tables with a vengeance. Pearly teeth are better than "style."

MEN'SMAN'S PEPTONIZED BEEF TONIC, the only preparation of beef containing the entire nutritive properties. It contains blood-making, force generating and life-sustaining properties; invaluable for INDIGESTION, DYSPEPSIA, nervous prostration, and all forms of general debility; also, in all enfeebled conditions, whether the result of exhaustion, nervous prostration, overwork, or acute disease, particularly if resulting from pulmonary complaints. CASWELL, HAZARD & CO., Proprietors, New York. Sold by druggists.

The most delicate persons enjoy taking **EMERY'S Little Cathartic Pills**, give a wholesome appetite, put new life in a broken-down body. 15 cents.

"Mens sana in corpore sano." "A sound mind in a sound body" is the trade mark of Allen's Brain Food, and we assure our readers that, if dissatisfied with either weakness of Brain or Bodily powers, this remedy will permanently strengthen both. \$1. At druggists, or by mail from J. H. Allen, 315 First Avenue, New York City.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of **MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING**. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. **MRS. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING** is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

## How to Kill a Town.

Send away for everything that you can get for two cents cheaper than the merchants of your town can afford to sell. If you have a few dull business days, advise every one you meet of the fact, stop your advertisement in the paper, and let your general dejection be most apparent. Do not attend any public meetings or assist any public improvements; and should any improvements be projected, find every possible fault with them, predict their failure, and publish your disapproval whenever an opportunity presents itself. Abuse all those who may happen to show a lively interest in the welfare of the community. Continue in this spirit throughout the affairs of your daily life, and when you have succeeded in attaining a sufficient degree of general nastiness, wonder why your customers have forsaken you; attribute the fact to the want of enterprise in the newspaper in which you will not advertise, and to the ill will of those whom you have vilified. Then you will perhaps find that the town is not so good as it should be, and that the great object which you have had in view is nearly accomplished. The town being dead, you will doubtless be happy. —[Exchange.]

## A Tough Citizen.

PORTSMOUTH, V.A., Aug. 21.—A few minutes before the departure of the 7 o'clock Raleigh express train this evening, and while a large number of negro excursionists were gathered at the depot here, a young man pushed his way through the crowd, flourishing his revolver, and in an excited manner called upon the people to get out of his way; that he would kill the first man who interfered with him; that his father was on the train and he meant to kill him. He searched the train and found his father standing on the platform of one of the cars and began firing at him, striking him in the thigh twice. When questioned, he said his name was A. M. Sydes, was living in Philadelphia, and had sworn to kill his father, Dr. Sydes, for deserting and slandering his mother. He said that he had followed his father to New York, and thence to Norfolk. His father said that the trouble grew out of the dissipated habits of his son and his unsatisfied demands for money. The wounded man is dangerously hurt.

To the afflicted, we say read the advertisement of Simmons Liver Regulator.

## Defaulting Cashier Surrenders Himself.

Boston, August 21.—K. M. Fitch, the defaulting Cashier of the Second National Bank of Warren, Ohio, arrived here early Sunday morning. During the day he appeared to suffer severe mental trouble. Arising yesterday, after a sleepless night, he decided to surrender, and walked into the headquarters of the district police. He said that his name was Kirkland M. Fitch, and was wanted in Warren, Ohio, for embezzling \$80,000 from the Second National Bank of that place. He said that he could not account for his coming to Boston, unless it was to get away as far as possible from his crime. He also said that he had taken the money as charged, and had lost it all in stock speculation in New York. He is desirous of saying but little about his evil doings. He expressed a desire to return to Ohio as soon as possible, and would go without requisition.

## Postal Matters.

Officials of the Postoffice Department have not yet formed any estimate of the effect of the reduction on postal rates, which goes into operation in October. "We can't tell much about it," said the Third Assistant Postmaster General, "until after the first month. There has been, of course, a falling off in the receipts from stamped envelopes, but that is only temporary. The effect of the reduction to two cents will not be known until the end of the month."

"As two boxes of Dr. Benson's Celery and Chamomile Pills cured a friend of neuropathic, whom the doctors here couldn't cure, I'll send for some for myself." Clifford Shand, Windsor, Nova Scotia.

## THE SPARROW'S VALUE.

A Way Found for Utilizing the English Sparrow as a Mark for Sportsmen.

Philadelphia Times.

Two problems are solved in the execution of an enterprise fathered by Charles H. Jones, proprietor of a sporting gallery on South Third Street and a fervent professor of the British sporting religion of the handicap. One of these questions was: "What shall be shot from the trap?" the other, "What shall be done with the sparrows?"

Mr. Jones's scheme, economizing language, answers both questions in the words, "Shoot the sparrow from the trap." "But, queried an incredulous reporter, yesterday, 'will the sparrows fly?'" "I have netted thousands of dozens in England for trap shooting," was the reply, and I have shot hundreds. In England they are considered far better for sport than pigeons, as they are in fact the best trap birds, except the linnet, that flies up a corkscrew. In the street the sparrow is quite tame. He will merely step aside as the wheel of a wagon passes by, but in a strange place, after having been deprived of his liberty for a short time, he flies like light."

"Is he easily netted?" was asked. "Quite. I could go and net a thousand sparrows in a field while people were scraping three counties to buy half as many pigeons at fifty cents apiece. There is some difficulty in keeping them alive after capture, but to one who understands their treatment that is simple enough."

"Are they shot from a pigeon trap?" "No. There is a regular sparrow-trap," and the speaker laid one on the counter, which bore evidence of having been the coil in which the death-watch had been set on many a doomed bird.

"Where do you expect to net them—in the street?"

"No; there are not enough of them in town. I am pretty well known up through Montgomery County, and will get permission from the farmers to net them in their fields. In England I could go out anywhere where there were ricks or ives and catch them. Here people are more inquisitive as to your business on their land."

"Are the birds considered as much of a pest by the English farmers as by ours?" The Englishman laughed.

"They are, of course, but they don't mind 'em."

"Why?"

"Because their grandfathers didn't. I myself hope they'll not be exterminated here, for that would ruin my scheme, into which I'm going to put my last dollar if necessary."

"How many will the trap shooting destroy annually?" inquired the reporter.

"Ed Cole of the sporting life has guaranteed to raise a club of thirty members to shoot once a week to begin on. Of course the thing ought to spread, as I suppose sporting men would rather try their skill on a game bird than on glass balls and clay pigeons, as they have been compelled to do lately."

"What will be the expense of sparrow shooting?"

"I propose to sell them," was the answer, "for matches at ten cents a piece. The pigeon, as I said, costs fifty cents."

"And when is the slaughter to begin?"

"It would have begun before now if I hadn't thought that the outlawry of the sparrow didn't begin until September 1st. I shut up my trap on perhaps next week."

"It's a great honor that this new English law against pigeon shooting gives the bloomin' sparrow," said a very radical-looking cockney artisan who had entered Mr. Jones's shop and stood listening to the conversation.

"How an honor?" queried the reporter.

"To be shot for a 'Urling' am 'rocketeer' by a real yardsman, with the royal puffers a-lookin' at 'im," was the satirical response.

To a question as to whether the new sport would be interfered with by the Society for the Prevention of Cruelty, one of the members responded:

"The Legislature has put the sparrow outside the pale of the law, which we obey in all things. With the pigeon it is a different matter. The barbarous treatment of that long suffering bird is something which we are going to end, which reminds me of the abuse of the street car horses."

The reporter fled.

## Another Mysterious Disappearance.

St. Louis, August 21.—Another one of those mysterious disappearances for which St. Louis has become somewhat famous, occurred here Sunday evening, and has caused great grief in several well-known families. On Sunday evening Col. James O. Churchill, Vice President and Manager of the Western Anthracite Coal Company, and his wife, went out for a short drive, leaving at home their daughter Mary, about 17 years old, on their return, about 8 o'clock, the daughter could not be found, and no clue to her whereabouts has yet been discovered. She was last seen standing alone about 7 o'clock at the front gate of the family residence, No. 2,737 Morgan Street, in home attire, and presenting no unusual appearance. Detectives have been working on the case since last night, and every effort has been made by them and by the girl's father and friends, but nothing yet has been heard of her. She was quite a grave girl, studious, fond of music and cared little for gentlemen's society. The only theory so far advanced is abduction. The young lady is described as follows: About five feet three inches, straight and well developed, light brown hair and grayish blue eyes, oval face, regular features and sometimes wears her hair banded.

## Against Tight Jerseys.

Dame Fashion is tired of skin tight Jerseys, and goes to the other extreme. Big sleeves, big hip-skirts; a general looseness prevails. Fashion preceded this change by putting little girls into nightgown dresses; then she ordered the larger ones to be transformed. One thing is sure, however, no fashion can abolish tight waists for the ladies, at least no fashion has ever yet done so. An attempt to change the hour glass shape into the hoghead can never succeed.

No matter how jaded the constitution may be from disease or excess, the Great German Invigorator restores it permanently. For sale by all druggists.

## A DUEL AT TWO PACES.

A Fight With Rifles Growing Out of a Trivial Quarrel at Supper.

Philadelphia Times.

Last evening a wagon entered Laramie on the North Park road containing three men. Two of these occupied the seat in front and the other lay upon a bed of blankets in the box. The party halted at Dr. Harris's office a few moments and then drove out to the hospital. The man lying upon the bed was taken inside. His name is Charles Shelton, and Friday night he shot and instantly killed a man named Keys at Snyder's ranch, on the Little Grizzly, thirty miles west of Teller, in North Park. His companions were Messrs. August Anderson and Lawrence, and the particulars of the tragedy, as learned from the first-named gentleman, are about as follows:

Charles Shelton is the proprietor of a horse ranch in the park, and last Friday was at Frank Snyder's ranch helping him put up hay. Another man named Keys, who was known as "Billy," and who has an interest in the Snyder ranch, was present, and Snyder himself and several others. They were eating their supper in a small tent near the cabin on the ranch. During the meal Keys asked a boy—a herder in the employ of Shelton—to go into the cabin and refill the teapot, and the boy refused, saying he was not in his (Key's) employ, and he had no right to order him around. Keys commenced to abuse the boy, Shelton interfered in his behalf, and a quarrel ensued between the two men. Finally Keys left the table, and taking the teapot, went into the cabin, returning in a moment with the tea and a Winchester rifle. He set the teapot down and turning to Shelton, said, with an oath: "I have a notion to kill you."

Shelton arose from the table and dared him to shoot, but Keys finally stood the weapon up against the tent, and sat down again. Shelton then walked out of the tent, got another Winchester at the cabin, loaded it, came back to the tent, and standing in the door, said: Now, d—n you, if you want to shoot, do it!" Keys jumped up from the table, saying, "all right," as he did so, seized his rifle and brought it to his shoulder, and at that moment two reports rang out almost together. Keys fell backward, and Shelton dropped his gun and ran across the prairie holding his hands to his face. Snyder started in pursuit, while Anderson raised Keys's head. The wounded man gasped once or twice, said "Oh my God!" and fell back.

Snyder returned in a few minutes with Shelton who had been shot in the chin, the ball ranging backward and to the right. His wound was bleeding badly, and his companions thought he, too, would die. He could not speak, but made signs for his coat which was given him. He took paper and pencil from one of the pockets, and wrote: "Is Keys hurt?"

Snyder wrote beneath the question, the words: "He is dead."

The ball from Shelton's rifle entered his right side in front of the left armpit, passed through the body and came out just above the shoulder. Shelton had fired his weapon without bringing it to his shoulder, which accounts for the upward range of the ball.

A messenger was sent to Teller for a physician, who dressed Shelton's injuries. The ball was found just beneath the skin, at the base of the neck, on the right side. Saturday night Anderson and Lawrence started for Laramie with him, and by driving almost continually and changing horses several times reached the city last evening. Dr. Harris, who has charge of Shelton, says the chance for his recovery is good, though such result is by no means certain. A portion of his lower jaw is shot away, and the wound is otherwise a bad one. Shelton is not unknown in Laramie, having been in the city on business quite frequently. He is a brother of Mr. Shelton, who was Cashier of the Union Pacific road for several years, and who is now in business in Omaha. Mr. Anderson informs us that the Coroner was notified at once, and that Keys was to have been buried yesterday. He and his companion left for home this morning to be present at the inquest.—[Laramie Boomerang.]

Edison's Electric Light is a wonderful discovery, but not as wonderful as Hall's Catarrh Cure. Sold by all druggists.

## How to Sleep on a Railroad Train.

The medical journals publish directions for obtaining sleep on a railroad train. They are those of a German physician, Dr. Outten, who says that if a person lies with his feet toward the engine the movement of the car tends to draw the blood from the brain to the feet, cerebral anemia is produced, and then sleep; but if he lies with his head nearer the locomotive (as is the custom in Germany), there is produced a cerebral hyperemia, incompatible with sweet repose. Dr. McBride, of the Milwaukee Insane Asylum, advises exactly the reverse. He holds that with the feet toward the engine the blood tends to the head. In the starting of a train momentum is first given to the car. Bodies in the car resist for a moment, and then acquire the same momentum; but on the least increase of speed they offer resistance—they are not disposed to go as fast as the car. A round marble placed on a board will roll back when the board is moved rapidly, and he thinks it is reasonable to suppose that in a human body the blood constantly offers resistance to the motion of the train. Therefore, with the feet to the engine, the blood will seek the brain. For this reason Dr. McBride urges sleeping with the head toward the engine.

## Simon Bolivar's Statue.

NEW YORK, August 22.—The promoters of the statue of the great liberator, Simon Bolivar, will unveil the statue February 22d next in compliment to the United States.

## Sale of a Railroad.

SYRACUSE, N. Y., Aug. 22.—The Chenango Railroad has been sold for \$100,000 to the West Shore Railway Company.

## Business Failure.

TORONTO, Aug. 22.—Morehouse & Godson, dry goods merchants, have assigned. Liabilities \$45,000; assets \$29,000.

For a sure cure for Dyspepsia, take Simmons Liver Regulator.

## THE CYCLONE.

Additional Particulars of the Terrible Calamity.

St. Paul, August 23.—North of Viola the cyclone swept crops and buildings clean in its path. Henry Stiefhild's nice residence and buildings were leveled. Mrs. Stiefhild was slightly hurt.

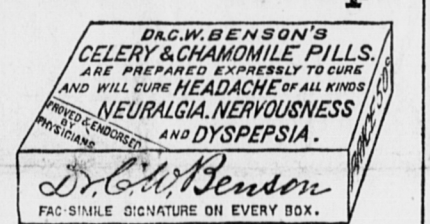

WINONA, MINN., August 23.—The cyclone struck here at seven o'clock last evening, and the depot was unroofed and badly wrecked. The engine house is a total wreck. The covered bridge near the town is gone, and a number of cars in the yard are completely smashed. Holton's elevator is a total wreck, and half of it obstructs the main railroad track. The streets are filled with trees and fragments of buildings. Five cars and an engine were derailed at Zumbula, and the fireman, William Higgins, jumped from the engine and was buried under the wreck.

DODGE CENTER, MINN., August 23.—The crops in the path of the cyclone two miles south of here were all destroyed, and heavy damage was done to buildings. A man named Elbright and his wife were working in the field, when they saw the storm coming and clung to each other. When the storm struck them he was knocked senseless and she was blown to a considerable distance. She was found this morning in a horribly mutilated condition. One arm was twisted off and the other badly crushed. A number of persons were more or less injured.

KASSON, MINN., August 23.—The cyclone passed about six miles south of this place, doing considerable damage to persons, buildings, and crops. Christian Olson's wife was killed and his oldest daughter had her leg broken. Anderson Walder's wife was badly hurt and can not live; his mother-in-law killed, his brick house unroofed, and all out-buildings destroyed. J. G. Norfrank's house was destroyed, and some members of his family badly injured, and his cattle laid out in all directions over the prairie. The loss will foot up many thousands of dollars.

ROCHESTER, August 23.—One-third of the buildings are down. Twenty-four people are dead, but a number of them have not yet been identified, owing to their frightful mutilation by the storm. The storm swept through Dodge and Olmsted Counties, causing greater destruction than the cyclone a month ago. The damage at Rochester will reach fully \$300,000. When the storm struck the Congregational Church thirty-five children had just returned from a picnic, but none were injured. The list of the dead and wounded is the same as reported.

To aid digestion, take Simmons Liver Regulator.

Oh My Head  
HOW IT THROBS,  
I Can't Sleep."

"Had Neuralgia and Sick Headache for years. Chloral or other medicines would not cure, but your Celery Pills did." S. G. Harburg, Casstown, O.

"Am an old broken-down minister and I thank God for your pills, they cured my neuralgia." Rev. Daniel Allen, Montevideo, Minn.

"For 50 years, at short intervals, I had sick headache. Your Pills have cured me." Wm. W. Hubbard, Manchester, N. H.

"I am glad to say they have cured me of severe headache." Mrs. Alfred Dressler, Milton, Pa.

"I knew of other cases, besides my mother's, where they have cured headache." E. P. Cornell, Pittsburg, Pa.

"Cured me and my sister of nervous headache of several years standing." Miss L. M. Chamberlain, East Fairfield, Ohio.

"Cured me and a friend also of aggravated sick headache." James P. Kelly, Tazewell, E. H. Va.

Dr. J. W. J. Englar, a prominent "regular" of Baltimore, pays them this high tribute: "The most important addition made to the materia medica in the last quarter of a century."

Dr. Benson's Skin Cure consists of internal and external treatment at same time and it makes the skin white, soft and smooth. It contains no poisonous drugs. \$1 at druggists.

C. N. Crittenton, Sole Wholesale Agent for Dr. C. J. W. Benson's Remedies, 115 Fulton St., New York, April 1-W, F, S, A, W, C.

HALL'S  
Catarrh Cure

Recommended by Physicians!  
100 REWARD FOR A CASE IT CURES!

We manufacture and sell it with a positive guarantee that it will cure any case, and we will forfeit the above amount if it fails in a single instance. It is taken internally, acting upon the blood. ## The Excelsior Slate Paint

— FOR —

## Shingle and Metal Roofs.

Is recommended by all who have used it as the very best Paint yet before the public.

It is the best roof preservative known. It is the best preventive of fire from coals and sparks falling on shingle roofs. It adds materially to the looks of the roof. It is equally adapted for new and old shingle roofs, rendering them impregnable to sparks, and preserving the shingles. This point is the best that can be used on tin or iron, and is largely in use for fences, outbuildings, etc.

## MESSRS. HOULIHAN &amp; BROTHER

Are Sole Agents for this celebrated Paint, and will also apply it.

Read What Lexington Men Say of It: I feel justified in saying it is as good as represented. E. R. SPENCER.

I am convinced that it is the most permanent article for the purpose that I know. DR. J. E. ROBERTS.

We feel satisfied that it is permanent and all right. B. WILSON & CO.

We have used this Paint, are well satisfied and think the Excelsior Slate Paint is all right. JOHN FEELEY. GUS JAUBERT, H. E. BOSWELL & SON, P. TOOHEY, T. W. FOSTER.

apr18-D&W17

## KENTUCKY MILITARY INSTITUTE

## LEXINGTON, KY.

Wednesday Morning, August 29, 1883

Gov. BLACKBURN'S administration is being severely criticised by many of the State papers. We believe that Gov. Blackburn has always tried to act for the best, and we have never for a moment doubted the honesty or the purity of any of his motives. Many of his actions we have considered ill advised and unpolitic, and many of them have proven to be so, but all men are liable to err, and his errors have been on the side of mercy. "The Old Governor," as he is familiarly called by his intimates, has a kind heart, and can't help it. The amelioration of human misfortune and human distress has been his life-time hobby, and if, in the practice of philanthropy he has overlooked the interests of State, it has been not because he loved law the less, but because he loved the great principles of love and mercy and charity the more. To paraphrase an old saw, "To err is human, but to pardon is divine." Governor Blackburn has pardoned many—now let many pardon him.

The Fair is on at last. It has been long and anxiously waited for with many long anticipations of pleasure, and we are glad to tell the people that it will, in every respect, meet their most sanguine expectations. To-morrow we will have a host of visitors from Cincinnati and Covington, headed by the Mayors of the two cities, and it is to be hoped that our people will all put on their best tins and tuckers, and show the visitors how nice we all are down here in God's country. Mayor Stephens, of Cincinnati, and Mayor Athey, of Covington, are both native Lexingtonians, and we should do them proud. Let us show the Cincinnatians what a fine place Lexington is to live in, and it will not be long before a lot of them will be coming down this way to settle, and to build factories, and to inaugurate other industries.

THERE is an impression abroad that Governor Knott is as callous as a wart, and won't pardon anybody. Governor Knott is not an impressionable man, but he has a very kind heart in his rugged old bosom, and will doubtless show all the mercy that humanity demands. But he is an exceedingly well-balanced man, and will not allow his sympathy to run away with his sense. He will weigh the welfare of the State and the demands of justice carefully in the balance before granting a petition, and he will be sure to take pity upon the people as well as upon the criminal.

THOSE who want to know, you know, are referred to the following unsatisfying words from the Frankfort Yeoman, which comes from the center of information—that is, from the center of such information as there is:

There is a good deal of speculation concerning Governor Knott's Cabinet, but nobody seems to know positively who will occupy any particular place. The only thing we can say with regard to it is that he will select good men, and nobody will have any right to feel disappointed, as he has made no rash promises.

THE Georgia Legislature, which is almost unanimously Democratic, has deliberately passed an apportionment bill, which gives the Republicans six out of the ten Congressional Districts in the State. All propositions to gerrymander the State were promptly voted down. Such an act of political magnanimity was never known before in the history of the country. It was probably intended as a pointer for the Ohio Republicans.

A STRANGE story comes in our dispatches to the effect that a band of Arizona cowboys and "rustlers," headed by a Mexican desperado, are moving toward the Yellowstone Park with the intention of kidnapping President Arthur and party, and demanding a high ransom for their release. The fact that Joe Mulhatton is not in Arizona, where the rumor originated, lends it a slight tinge of reliability.

THERE is no doubt but there is a gang of expert cracksmen and burglars in this city who have come to stay during the Fair and races, and nightly depredations may be expected. It will not, therefore, be amiss for our people to load up their pistols and shotguns and lie in wait to welcome the thieves with bloody hands to hospitable graves. There is no use to mince matters with such cattle.

LEXINGTON does not propose to lay behind in journalism, and never has less than fifteen newspapers. They come high, but she has to have them.

THE Louisville Commercial is of the opinion that the Southern Exposition will "yet come to an untimely end," as "the Lexington papers still attack it." We do not know that any Lexington paper has attacked the Southern Exposition, and we are quite certain that the Press has not. But we are sure that any enterprise which has the gall to ask for two columns of free advertising every week in the various State papers, and never turn in a cent's worth of pay advertising, will not come to an untimely end. It's infinitude of check would carry it successfully through the wreck of matter and the crush of worlds.

THE New York Herald of last Sunday has a lengthy article showing that no matter how great the influx of foreigners into the United States, the native population will preponderate. This is ingeniously shown by a diagram. The circumference of the diagram measures fourteen inches and embraces all the States in the Union. On the diagram the German and Irish population occupy a half inch each. England and Wales, British America, Scotland, Norway, Sweden, France, China, and other countries that have contributed to our population occupy altogether less than one inch. From this it can be readily seen that the whole foreign population occupies less than two inches, while the native is more than twelve. As further proof of this, the census of 1880 showed a native population of 43,402,970, and a foreign population of only 6,679,943. The entire article, as given by the Herald, is full of interesting statistics. Among other things, it shows that the center of gravity of the population of the United States is located in Kentucky, eight miles from Cincinnati, near the village of Taylorsville.

## Third National Bank.

The stockholders of the new National bank met Saturday afternoon in Judge R. A. Buckner's office for the purpose of officers and permanent organization. They decided upon the name, Third National Bank of Lexington, Kentucky, and will open doors for business about October 1st in the office now occupied by Grinstead & Bradley. The attendance of stockholders was very full indeed, there being over 950 shares represented out of the 1,000 subscribed. The capital stock of \$100,000 is rather small for the heavy business to which the institution will fall heir, but the shrewd management of its directors will readily bring to it ample deposits to make up for the small capital. The directors selected were John W. Berkley, James G. Kinnaird, Richard A. Buckner, W. H. Boswell, B. F. Pettit, W. J. Loughridge, and R. M. Adams. After the adjournment of the stockholders, the directors had a meeting and elected John W. Berkley, President; James G. Kinnaird, Vice President, and O. L. Bradley, Cashier. The positions of Teller and book-keepers have not yet been filled, but it is well understood that Louis des Cognets will receive the teller'ship, with probably Cooper and Barr as book-keepers. Much credit is due Lee Bradley and Louis des Cognets for the substantial class of stockholders they obtained for the new bank, and it was eminently proper that they be retained in the positions in which they have given such satisfaction.

## R. A. W.'s.

Governor Blackburn has appointed as staff officers one Brigadier General, 107 Colonels, three Majors, and six Captains. All these men of war are to be returned to civil life by the ending of Governor Blackburn's term of office next week, and as few of them are able to make a living, except in the business of slaughtering their fellow men, it is feared that they may conspire to overthrow the State Government and set up a military despotism. The entire militia force of the Commonwealth has been ordered into camp at the capital, but as they are largely outnumbered by the Colonels about to be mustered out, there is no telling what may happen. Should the discharged Colonels form an alliance with the pardoned convicts, it will require all the regulars of the Federal Army to maintain the autonomy of the "Grand Old Commonwealth."

LEONATUS. NEW YORK, August 27.—Col. M. Lewis Clark, President of the Louisville Jockey Club, and Mr. J. G. Chinn, the owner of Leonatus and Red Rose, the latest pacing wonder, left for Louisville this morning. Col. Clark has been delayed in New York since the breaking down of Leonatus. Pierre Lorillard has at last decided to send his stable to Louisville. The Dwyer Brothers will also be at Louisville with Barres and other horses. Mr. Chinn has not abandoned all hope for the recovery of Leonatus, who is now in temporary retirement. Speaking of Red Rose, he will match the pacer against any other three-year-old for \$5,000 or more. President Clark says Parole will start in a special stake at the September meeting at Louisville.

## Something Useful and Valuable in Many Ways.

We to-day received from J. H. Zeilin & Co., Philadelphia,—the proprietors of the popular remedies, Simmons Liver Regulator and Darby's Prophylactic Fluid—a copy of "The Peoples' Regulator," a pocket companion useful for everybody—man, woman and child, and we hope all our readers will get a copy, as they will find it valuable in many ways. They mail it to any one sending them their address.

## A Monday Hanging.

RALEIGH, N. C., August 27.—This morning Henry Jones was hanged for the murder of Deputy Sheriff Alvis H. Blake last year. The execution was private. Jones made a profession of religion. He was remarkably self-possessed before the execution and on the gallows. Death ensued in twenty minutes from strangulation. Jones was twenty-three years old and leaves a wife and infant.

## A SENSATIONAL RUMOR.

That a Party of Cowboys Are Trying to Kidnap the President.

HANLEY, IDAHO, August 25.—Considerable excitement exists in this city over a report, which appeared last evening in the Woods River Times, that a party of Cowboys had started for Yellowstone Park to kidnap President Arthur, and Sheriff Turner has detailed two trustworthy Deputies to look up the matter, with instructions to summon a strong posse and arrest the kidnappers if the facts are as stated. The Times says: "During the past two weeks a number of strangers, all well provided with good riding animals and firearms, and resembling a party of Regulars or Texas Cowboys, have been camped on Willow Creek, and considerable curiosity has been expressed as to the intentions of the party. Some accounting for their outfit as the party organized to go up in the Indian country on a prospecting trip, while others believed them to be a band of Arizona rustlers. During several days past some of the party have ridden through town in a defiant manner, and mysteriously disappeared. From a man who came in to-day it is learned that the party, who induced him to join and take a certain pledge secretly, were organized to proceed to Yellowstone. The party left last night, going on the stage road, and escaped during the night. The object of the expedition is to capture President Arthur and party, and to spirit them away into the mountain fastness and caves, where they will be fed, but kept prisoners, while the members of the band act as pickets to prevent being surprised and captured while negotiations for a ransom are conducted.

The captain or leader of the party has an idea that a heavy ransom will be offered by the United States and the personal friends of the President, after search for the party shall be given up, and that half a million dollars of more can thus be extorted from the Secret Service Fund and divided among the party, on the principal adopted by the Italian bandits. The escaped members of the company say there were 65 men in the outfit, and that some of them were guerrillas, and five Shoshone and Bannock Indians will go along as guides and scouts, who are armed with repeating rifles and scalping knives. The leaders are Mexican desperadoes on whose head a price has been set, and with the exception of the two Italians who left the railroad grade, the others of the party are Cowboys. A grand council was held the night before last on the prairie, when every man swore by his dagger in the fire light to do his duty.

## Horse Notes.

It is related that R. W. Thomas has sold Wedding Day, five years old, by Dudley, dam Adele by imp. Albion, out of a mare by Wagner, to E. Corrigan for \$1,500.

It is narrated that R. C. Randall has sold the bay colt Owen Bowling, three years old, by Tom Bowling, dam War Over by War Dance, out of Crescent by imp. Australian, for \$4,000, with his engagements.

A. J. Alexander, Spring Station, Ky., has lost a valuable brood mare, Sue Dudley, she died August 7. She was foaled in 1858, and by Alexander's Edwin Forrest; dam Madame Dudley. In 1874 she gave birth to Mambrino Dudley, 2:32, sired by Woodford Mambrino. In 1869 she had a brown filly, Datura, by Woodford Mambrino; in 1870 brown colt, Berlin, by Woodford Mambrino; in 1871 bay colt, Sacramento, by Woodford Mambrino; in 1875 bay filly, by Harold; in 1880 black filly, Swabia, by Wedgewood; in 1882 bay colt, Dudgeon, by Belmont; in 1883 bay colt, by Belmont. Berlin went to Scotland, and Mambrino Dudley is owned by Gen. B. F. Treacy, Apalchin, N. Y.

## Four People Drowned.

PORTLAND, ME., August 25.—Yesterday afternoon a party of four people were drowned in Wells Beach, carried out by the undertow. The names of two are Emma Gould of Boston, and Eddie Little of Washington, D. C. The others are unknown, one being a child. None of the bodies have been recovered. The drowning was witnessed by many people, but no assistance could be rendered.

WELLS, ME., August 24.—Further details of the drowning accident show that nearly fifteen or twenty left Baldhead Cliff House yesterday at 9 A. M. and drove to Quil Beach, where they arrived about 11 o'clock and entered the surf, the undertow and surf running strong and a high sea on. Although warned of danger, in venturing too far nearly the whole party were carried out by the undertow and four drowned. Four others were rescued in a critical condition, but at last accounts were doing well. The rest of the party reached shore safely.

## The Terror of the South.

JASPER, FLA.—Mr. Boardman W. Wilson, traveling for A. G. Alford & Co., dealers in Firearms and Cutlery, Baltimore, was prostrated here with the "break-bone fever," he asserts that in his own, as well as in the case of others, the only thing found to relieve this painful malady was St. Jacobs Oil. This wonderful pain-cure has the endorsement of such men as ex-Postmaster General James, Senator Daniel W. Voorhies, and an army of others.

## A Defeating Treasurer.

DETROIT, Aug. 27.—Evidence now very strong goes to show that A. A. Atherton, County Treasurer of Rosecommon County, has skipped with funds amounting to about \$18,000, of which \$3,000 belonged to the village, \$5,000 to Garnish township, and \$1,800 to Harvey Emery, a poor man, and smaller amounts to various other persons and townships. His present whereabouts is unknown.

## THE TURF.

Splendid Burgoos at the Track—General Notes.

Burgoos preliminary to the spring and fall races have become a recognized thing in this section. The custom was established by Price McGrath. After his death poor Bert Scully kept up the practice by giving similar entertainments at the track. His untimely end was thought to have put an end to burgoos, but a successor was found in the person of Mr. George Cadwallader, who yesterday gave a burgoos and barbecue at the track to all local lovers of the turf. The soup, the making of which was superintended by Mr. Gus Jaubert, was splendid, and the mutton, which had been broiling since 4 o'clock in the morning, was superb. The "lay out" was enjoyed by a large gathering, among which was some of the most prominent men in Kentucky. Of course it will not do to mention names, because such gatherings are privileged, and everybody is expected to be on his best social behavior; but we may be pardoned for saying that Hon. J. C. S. Blackburn was there, and was the most admired of all. Long life to him. His heart is in the right place and his tastes are Kentuckian from the crown of his head to the sole of his foot. May Mr. Cadwallader live long and prosper, his shadow never grow less, and when he turns up his toes to the daisies, may the one he loves best be there to cheer his last moments, though she may have "nothing else to do."

The course is in prime condition for the races which will now soon commence. The inside track for training is almost, if not quite, as good as the other. Turfmen are delighted with the condition of things here, and the efficient Superintendent, Mr. James Murphy, is the recipient of many compliments on this account. His knowledge of the requisites of a good track gives him great advantage, so much so that a gentleman came here two or three days ago with a proposition from the Chicago Association to take charge of their course at a good salary. It is not likely however that he will accept. He is in love with this country, and his breeding interests will perhaps clinch his conclusion. We do not want to part with him. He is the right man in the right place. It is reported, on reliable authority, that the Chicago Association has also made overtures to Col. Lewis Clark, President of the Louisville Jockey Club, to resign his position and accept the control of the Chicago meetings, with a view to making them the most important in America. The business enterprise which he has displayed in bringing Louisville to the front has made him a reputation that is worth much to him if he desires to make money out of it.

The latest report is that an agreement and a sort of concert of action has been arrived at between the Chicago, Latonia, and Lexington Racing Associations, by which the time of holding their meetings shall be arranged without regard to or consultation with Louisville, thus leaving her out in the cold. She has heretofore had no regard for others, and now those nearest to her are about to retaliate by administering the same dose.

The racing this fall will be very fine. The stakes did not fall as well as might be expected, but those of next year and 1885 have filled admirably. Under the new arrangement, by which the track has been leased to a company, will no doubt result in making the Lexington course one of the most popular in the country. Some very fine two-year olds will be seen this fall that have never started before. Mr. James. Murphy has four, among which is what he considers the world beater. Col. Frank Waters has a two-year-old in that stable, by Monarchist, dam by Longfellow, that in appearance, at least, is every inch a race horse. It is by far the finest horse that Col. Waters ever owned, which is saying a great deal.

Mr. John McFadden has a yearling by Longfellow, dam Nora Creina, which he calls the second Leonatus. He is the sixteenth colt out of the old mare, which is now twenty-four years old, and is again in foal. Nora Creina has foaled some of the best racers America has ever seen, and her produce is much in demand.

Leonatus is at the track, looking as fine as a flute. The stable boys regard his mishap as slight, and think he will be in training again next year. The only doubt that exists in regard to his reappearance on the turf is as to his ability to stand the exercise necessary to put him in the condition in which he has been this year.

## Death of an Old Turfman.

CINCINNATI, Aug. 27.—John Reber, one of the oldest importers and breeders of blooded horses, died at noon to-day at Lancaster, O. He was first owner of imported Bonnie Scotland, and among noted horses imported by him were Hurrah and Kyrie Daly.

## The Yellow Fever Scare.

PENSACOLA, Aug. 27.—No sickness of any kind reported. The great burden now falls on the business men, the yellow fever scare carrying away their best customers, diminishing daily sales and absolutely suspending business, the quarantine cutting off country trade.

 (Successors to A. VOGLER & CO.) Baltimore, Md., U. S. A.

CHAPTER V.  
 In our last chapter we spoke of the boys in attendance at the Great Southern Exposition at Louisville, Ky.; this week we intend to devote a few words to ladies—God bless them! What would the Exposition be—as great as it is—without the ladies? We might go a great deal further and ask: what would the world be without woman? but for fear of getting entangled in the subject we will at present speak of the ladies who sit in and out, around and about the Great Southern Exposition building, like so many brilliantly plumed birds; it has been remarked time and again by visitors to the Exposition that the ladies dress so elegantly and withal in such perfect good taste, and right here is a lesson that the men should study with advantage and profit to themselves. It is often asserted that the "tailor makes the man" but it still remains an open question whether the "modiste" makes the woman. Nevertheless it is within the power of man to make his personal appearance attractive and pleasing to the eye; and who else must he apply to than the tailor? Louisville is a large city, and there are other large cities, but very few, if any one, can boast of a Merchant Tailor establishment of the magnitude and reputation of J. Winter & Co., corner of Third and Market Sts., Louisville, Ky. The fame of this house is not confined to any particular section; it is almost national—their patrons number thousands, and represent fifteen States! No doubt there are readers of this chapter to-day who can, from personal experience, recommend J. Winter & Co. to the fullest extent. The house has ample capital to buy for cash, in unbroken packages, direct from the looms, both in this country and in Europe, thereby saving many "middleman" profits, and gaining discounts for cash. All of these advantages are given to the customer. Some people wonder why J. Winter & Co. can make the same suit cheaper than other tailors? but this is nothing surprising when the facts are understood. We buy largely—no cut pieces—often an entire bale or case—of course we buy much cheaper than the ordinary tailor, who buys of a pattern only 3½ or 7 yards, or may be only 1½ yards. Our immense business requires an immense assortment of goods, anybody can suit himself here. We employ an army of tailors, to whom we give steady work all the year round, and by this we have the best work at low prices. Our cutters are artists. We use the best of trimmings, the best workmanship, and the lowest prices. Visitors to the Great Southern Exposition will find it a pleasure to be shown through the establishment of J. Winter & Co. The entire second floor of their building takes in the Merchant Tailor Department. Leave home in your old clothes—two days suffice to build up for you a new suit by measure taken.

## Fayette Circuit Court.

Thomas Sowell's Administration, Plaintiff }  
 versus }  
 Martin Sowell & Co., Defendants. } Notice.

By order of the Fayette Circuit Court, made in the above styled and in its May Term, 1883, all creditors of Thomas Sowell, deceased, are required to appear before the undersigned, Master of the Court, at his office in Lexington, Ky., on or before October 10th, 1883, and show their claims against said deceased according to law, or they will be barred.  
 August 24th JOHN P. ALLEN, M. C. F. C. C.

## Our Reporter's Vacation Notes.

DURING his rambles this season, our Mr. M. has taken upon himself the task of satisfying our numerous readers that whatever goods are manufactured in our goodly city of Rogers Williams are of as high a grade, and as the quality can be produced in any spot on the globe. Especially is this so when the skilled Pharmacist of many years' experience resolves to extract from the finest botanical specimens of the vegetable world the most potent cure for some special disease. In proof of his assertion that Providence, R. I., affords the best, he relates an interview with an acquaintance, given him while sojourning temporarily at her residence. She says, "About a year I suffered severely from Rheumatism in my limbs, and Neuralgia in the head, which I endured two or three months with much patience as possible, being under the treatment of an excellent doctor, and trying many kinds of medicine without any marked effect. At last a medical friend advised me to try Hunt's Remedy, because he attributed my severe suffering to the bad condition of my kidneys, which were not performing their proper functions, and I commenced taking it, and in a few days the neuralgia had departed, my headache had entirely disappeared, the swelling in my limbs and joints had gone, and I have not had a touch of it since. More recently I was troubled with impurity of the blood, which showed itself in eruptions on my face. I again resorted to Hunt's Remedy, and after taking it a short time was completely cured of that complaint. Hunt's Remedy has proved very beneficial to me in attacks of sick headache, which it always alleviates, and I notice the improvement as soon as I take the Remedy. This Remedy has strengthening elements, for it has made me feel much stronger, and has been very beneficial to my general health. I most heartily recommend it to all sufferers like myself. Mrs. L. G. TANNER, No. 126 Pearl Street."

## Great Price.

ALBERT G. MANN, of Cottage Home, Ill., says: "I have been prostrated for three or more years with kidney disease; at times I was not able to put on my boots; my wife has often pulled them for me. I was not so bad as that all the time, but I never knew what it was to be without pain in my back until I commenced using Hunt's Remedy. Since I began to take Hunt's Remedy I have been free from all pain, and take pleasure in saying that it is the best medicine that I ever knew for kidney and liver diseases."

## FOR SALE.

On the Kentucky Central Railroad, only an hour's ride from Cincinnati, a magnificent

Stock, Meadow and Tobacco Farm,

## OBTAINING

450 Acres

Barren land, very rich and productive. The finest farm in the State of Kentucky for raising and handling thoroughbreds, on a direct shafting between New York and the Great Bluegrass Section of Kentucky, and it sits from the Latonia Spring Race Course, on this farm the finest race track in the country can be made. This farm is situated in the most healthy region, and a thorough opportunity for an investment. For further particulars address

## READING NOTICES.

## BURNETT'S COCAINE.

Unlike all Other Hair Dressings,  
Is the best for promoting the growth of and beautifying the hair, and rendering it dark and glossy. The COCAINE holds, in a liquid form, a large proportion of odorized Coconut Oil, prepared expressly for this purpose. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair.

The superiority of BURNETT'S FLAVORING EXTRACTS consists in their perfect purity and great strength.

Illustrated Book of *Cage Birds* mailed for 3 cent stamp. Bird Food Co., 237 South 8th St., Philadelphia.

CHEAPEST FASHION MAGAZINE in the world, 120 large pages, 4 pages new music, 1,000 engravings each issue. 50 cents per year; single copies 15 cents. STRAWBRIDGE & CLOTHIER, 5th and Market Streets, Philadelphia.

## Wells' "Rough on Corns."

Ask for Wells' "Rough on Corns." 15c. Quick, complete, permanent cure. Corns, warts, bunions.

## Hay Fever.

From Col. J. Maidhof, of New York: "I have suffered severely for the last ten years from Hay Fever in early and mid-summer and in the fall. I desire in the interest of my fellow sufferers to testify in favor of Ely's Cream Balm. My short use of it demonstrated its efficacy.—J. Maidhof, 401 Broadway. It is easily applied.

I can recommend Ely's Cream Balm to all Hay Fever sufferers, it being, in my opinion, founded upon experience and a sure cure. I was afflicted with Hay Fever for twenty-five years, and never before found permanent relief.—Webster H. Haskins, Marshfield, Vt.

My brother Myron and myself were both cured to all appearance, of Catarrh and Hay Fever last July and August. Up to this date, December 23, neither have had any return of these troubles. Ely's Cream Balm was the medicine used.—Gabriel Ferris, Spencer, Tioga Co., N. Y.

Same Day—2:27 class—Mike, Cyclone, Stanger, Reveille, Ada H.

Fourth Day, September 7.—2:40 class—Emma Strathmore, The King, Jack Splan, Monie West, Mollie Mack, George W., Mattie Willis.

Same Day—Green horses—Tom Bagby, Dolly Spanker, Dr. Moore, Lady Offutt.

Fifth day, September 8.—Free for all—Zulu, Judge Hawes, France's Alexander, Alice Stoner, Catchfly, Reveille.

## Railroad Accidents.

CINCINNATI, August 27.—A special to the Times-Star from Steubenville, O., says: An accident occurred on the Pan-Handle Road this morning near Minzo Junction within 100 yards of the great disaster of 1878. The east-bound freight was ten minutes late, and collided with the Cincinnati express train. Both engines and one car were wrecked. Engineer Charles of Dennison, O., and Clerk William Newman and John B. Hoyt, both of Indianapolis, were injured; Hoyt fatally.

## Wheat.

VIENNA, August 27.—The amount of wheat available for export is estimated at 5,500,000 metric tons. The amount of barley available for export is 3,000,000 metric tons. It is expected that no rye or oats will be available for export. The international corn and seed market has opened here.

## Stock Notes.

Mr. W. T. Jones, the Jessamine County stock man, has shipped this season over 2,400 sheep and lambs, and a great many cattle. He shipped three car loads of stock yesterday week. He wants about 100 head of fine hogs to feed.

## Crushed by an Elephant.

CINCINNATI, August 27.—Harry Packard of Hartford, Conn., an employee of Barum's circus, was crushed this morning by one of the elephants, and this afternoon died at the Cincinnati Hospital.

## THE MYSTERY SOLVED.

The Skeleton of Theodore Grimes, the Supposed Runaway Colored Boy,

Found in a Thicket in the Edge of Town, Where He Hung Himself Last May.

Yesterday about noon two colored boys, who were hunting wild plums in a little thicket on the farm of Mr. R. S. Henderson, just beyond the edge of town, made a horrible discovery. It was the skeleton of a man who had either been hanged or hung himself, lying underneath a little wild cherry tree in the thicket, the flesh all gone, the skull separated from the body, and the bones gleaming with a spectral luster. The boys gave the alarm, and a number of persons soon visited the ghastly spot. Investigation showed the remains to be those of Theodore Grimes, a colored boy 16 years old, who left the home of his parents, on Seventh Street, in a huff, on Sunday, the 13th day of May, and was supposed by them to have gone off as a stable boy with some of the jockeys from the races. They say that he was not very bright, and had a great fancy for races and all matters pertaining to them. On the Sunday in question he had attended Sunday School with his little brother, and in the afternoon his mother ordered him to help her put up the chickens. He answered her very insolently, and she threatened to tell his father. He then assisted with the chickens and shortly afterward left the house, and was never seen again.

The boy hanged himself to a small cherry tree, and it is easy to be seen how he did it. He got up into a fork in the tree about three feet from the ground, and tied the rope around the body of the tree and then threw the other end over a limb a little higher up. He then adjusted the noose around his neck and jumped out, and it is supposed that the fall broke his neck. At any rate, the body had pulled off from the head, and the skeleton was lying together in a sickening heap upon the ground, and the rope, with the noose still intact, was swinging from the limb. The remains were identified from the clothing by the boy's parents, who seemed horror-stricken over the sad event, and the rope was also identified as one which had been given to the boy. The mysterious part about the matter is that the thicket, which is a small one, stands in an open meadow not fifty yards from a public road, and moreover, laborers have been working in the meadow off and on during the whole summer, and persons have been within ten feet of the skeleton, which is near the edge of the thicket, at least a hundred times. It seems impossible that the body should have remained so long undiscovered, especially as hundreds of people live almost within a stone's throw of the thicket.

Mr. Charles Henderson took steps for the holding of a Coroner's inquest immediately after the finding of the body, taking the names of the witnesses, summoning the Coroner, &c.

Coroner Delph repaired to the spot as soon as possible, and summoning a jury, held an inquest upon the remains and found a verdict to the effect that the deceased had come to his death by his own hands at some time between the 13th day May last and the 24th day of August, instant.

## ROUGH ON SAM BRYANT.

An Inside History of the Turf, Relating How a Horse Was Expelled and How He Again Got Back to the Track.

The shifting scenes of the turf are pregnant with episodes of interest to those who are not initiated in the intricacies of the popular sport. Therefore, the recital of a true story can not fail to be instructive to the tyro at least, especially when it carries its own moral. It may in truth be called a horse play in one scene and three acts. The scene is Monmouth Park, and the first act represents a race of a mile and three furlongs on July 2d, 1881. A fast horse called Big Medicine was deliberately pulled. The judges pretended not to pay any attention to the matter, but waited patiently for further developments. One week afterward Big Medicine again appeared, and he ran a good race with William Donahue as jockey, his owner this time intending to win. This was what the judges waited for as confirmatory proof, and Big Medicine, his owner, Sam Bryant, and the jockey, Swiney, who rode the horse in the previous race, were all "ruled off the track forever." Such was the official declaration. Two years elapsed, during which time an effort was made to have Bryant and the horse reinstated, and finally, a petition to that effect, signed by several influential Kentuckians, including Gov. Blackburn, Senator Beck, and Col. M. Lewis Clark, was presented to the Monmouth Park Association. Mr. Bryant was reinstated, and Big Medicine now appears under the name of Charley Marks.

Act second represents a race of one mile at Monmouth Park Tuesday, August 14, 1883. Charley Marks was one of the contestants, and as the start was to be made from the front of the grand stand there was a good opportunity to watch the movements of all parties. Several attempts were made to get a start, and Charley Marks was well forward at every breakaway. Seated on the steps of the grand stand, just below the reporter, was an individual said to closely resemble Samuel Bryant. He became indignant at the possibility of Charley Marks getting a good start, and shouted at the top of his voice, "Take that horse back!" The jockey obeyed the voice and never afterward made an attempt to get in front. The horse remained in the rear with Hickory Jim throughout, and was "nowhere" at the finish. The last scene of all "that ends this strange, eventful history" was another race at Monmouth Park on Saturday last. It was a mile and an eighth, and Charley Marks got off in the front rank and won the race quite handily, and Col. M. Lewis Clark was one of the judges. As the curtain fell upon the scene the critics compared notes, and it was discovered that all of them agreed that the interest was unflagging throughout the horse play. The shorn lambs only may guess what the verdict was.

## Nicholasville Court.

At Nicholasville yesterday Ed Hull, charged with the murder of Sidney Baxter, was acquitted. The court then went into the trial of the Letcher case.

## IN MEMORIAM.

1838.—C. Marshall Reid.—1883.

Although it is said almost every day, and with grief, that, one by one, our friends are passing away, the hearts of his friends and acquaintances were filled with special sorrow when it was said, on Tuesday last, that Marshall Reid was dead. We said his friends and acquaintances, but in a sense far more general than is usual, they were one, for those who knew him became his friends, to whom he was ever kind and true. Being at an early and tender age thrown upon his own resources, and actively engaged since, Marshall was well known in our community. From his first employer, that estimable and Christian gentleman and honorable man of business, Charles S. Bodley, he learned principles of industry and integrity which characterized his after life. In early manhood he became a member of Christ Church, and was actively engaged in its Sabbath school as teacher and librarian, as well as in the Mission school at Sandersville, and often has the writer heard the villagers speak with feeling of his usefulness and kindly interest in the religious instruction of their children.

Having improved his mind by reading, he was a pleasant and agreeable companion; highly social in his disposition; to a nature kind and friendly, he added a manner, frank, outspoken and genial. Duplicitous and hypocrisy were as unknown to him as his friendships were sincere and abiding. His charities were bestowed with a liberal hand, though modest, of which the world knew but little.

Devotion to his family, and thoughtfulness of his venerable father, was a ruling passion of his life, so beautifully illustrated by his having secured, when in health and strength, an insurance policy for their benefit—to bless and comfort them in age, when he should have passed away.

In life's prime he was stricken down. His last days were cheered and comforted by assurance of sins pardoned and hope of life eternal. In the calm quiet of a summer evening, as shadows sloping eastward fell across his new made grave in our beautiful City of the Dead, we laid our Marshall, in peaceful rest, with flowers on his untrodden breast.

LEXINGTON, KY., August 24th, 1883.

## Nicholasville Items.

NICHOLASVILLE, August 25. The Hull-Baxter case went to the jury yesterday evening, and this morning at nine o'clock a verdict of "not guilty" was rendered. J. S. Bronaugh and Col. Breckinridge argued the case before the jury for the defense, the latter speaking two hours and a half. Hon. C. J. Bronston represented the prosecution. None of Baxter's relatives were in attendance to assist in the prosecution.

There has been but one conviction during the week, Joe Smith, one year, for hog-stealing. He is the darky who set the jail on fire.

The Letcher case was called this morning. His honor, Judge Morton, having been retained for the prosecution at the examining trial, was ineligible, and Col. Breckinridge was elected special judge, but declined to act. H. M. Buford was then selected by agreement, and put in his appearance by the first train. The Sheriff has been ordered to summon 150 jurors for Monday morning at 9 o'clock, when the case will be opened. The defense is represented by Thompson, Porter, Bronaugh, Pryor Hendricks of Flemingsburg, and Blackburn of Cincinnati. Prosecution by C. J. Bronston and E. B. Hoover.

## Burglary.

On Thursday night burglars entered the house of Mr. G. P. Ramsey, who lives in the fork of the Georgetown and New-town pikes, and stole a gold watch and a lot of money. Dan Carter was arrested yesterday, charged with complicity in the crime, and will be tried to-morrow.

COLLEGIATE

## INSTITUTE,

— FOR —

YOUNG MEN & BOYS.

THIS institution is situated seven miles from Lexington, convenient to turnpikes and railroads, in a refined, intelligent, moral and religious community. The number of boarders is limited to sixteen. Every relation will be to the Principal. Students will be thoroughly prepared either for business or for any class in college. The temptations incident to town or city life are prevented. The danger of being corrupted by association with the idle, vicious and dissipated, is obviated. Every convenience for the comfort and health of the members of the school has been liberally provided. A parental interest is taken in them, and home and moral influences are thrown around them. An experience of more than twenty years as a teacher is pledged to secure the highest moral and mental development possible. Students will be received at any time and charged to the end of the current session. The next session will commence Monday, September 24, 1883. Terms moderate. Address

THE BEST  
OF ALL  
LINIMENTS

## FOR MAN AND BEAST.

For more than a third of a century the Mexican Mustang Liniment has been known to millions all over the world as the only safe reliance for the relief of accidents and pain. It is a medicine above price and praise—the best of its kind. For every form of external pain the

MUSTANG Liniment is without an equal. It penetrates flesh and muscle to the very bone—marrying the combination of pain and inflammation impossible. Its effects upon Human Flesh and the brute creation are equally wonderful. The Mexican

## LINIMENT

which speedily cures such ailments of the HUMAN FLESH as—Rheumatism, Swellings, Stiff Joints, Contracted Muscles, Burns and Scalds, Cuts, Bruises and Sprains, Poisonous Bites and Stings, Scurvy, Lameness, Old Sores, Ulcers, Frostbites, Chilblains, Sore Nipples, Caked Breast, and indeed every form of external disease. It heals without scars.

For the BRUTE CREATION it cures—Sprains, Swellings, Stiff Joints, Foundry, Harness Sores, Hoof Diseases, Foot Rot, Screw Worm, Scabs, Hollow Horn, Scratches, Windgalls, Spavin, Thrush, Ringbone, Old Sores, Foul Evil, Film upon the Sight and every other ailment to which the occupants of the Stable and Stock Yard are liable. The Mexican Mustang Liniment always cures and never disappoints; and it is, positively,

THE BEST  
OF ALL  
LINIMENTS

## FOR MAN OR BEAST.

## ANOTHER CYCLONE.

Twenty-five Persons Killed and Many Others Injured.

## Particulars of the Dreadful Disaster.

ST. PAUL, Aug. 23.—The cyclone which raged at Rochester, Minn., last night is reported to have been very severe. Twenty-four were reported killed and fifty, or more, injured. Vague rumors of a train disaster by being blown from the track is coming in, but no particulars.

ST. PAUL, August 23.—Passengers from Owatonna state that twenty-five persons were killed in a railroad accident, and that thirty-five injured were taken to the hospital at Owatonna. The Mayor of Rochester has telegraphed here for assistance, and states that twenty-five were killed and about forty injured. One-third of the town is an entire wreck, and it is believed from all reports that come in that the entire country surrounding Rochester is in ruins, and that the killed may reach up into the hundreds.

WINONA, MINN., August 22.—At 7 o'clock a cyclone struck the northern part of the City of Rochester, Minn., making a clean sweep of an elevator, a residence, and railroad engine house. Other property along the railroad, was completely destroyed. Mayor Whitton telegraphs that 24 were killed and 40 were wounded. The city is in need of assistance in the shape of food and clothing. The prostrated telegraph wires made it difficult to get the particulars. The storm swept through the towns of Utica and St. Charles in Winona County. Job Thornton was killed and several others were wounded. The report from Dodge County indicates much damage with loss of life. No particulars have yet been obtained. Mayor Ludwig of Winona with a corps of surgeons left for Rochester this morning.

OWATONNA, MINN., Aug. 22.—Meager telegraphic advices were received here early this morning of a terrible accident which occurred between Rochester and Zumbato on the Rochester and Northern Division of the Chicago and Northwestern Road. On account of wire interruption no information could be obtained until the arrival of a train from the scene of the disaster with thirty-five people who had been wounded by the accident. Of this number many seemed to be seriously wounded, and all have been taken to the hospital. The train wrecked was that which leaves Rochester about 4 p. m., arriving at Zumbato about 6 p. m. It was caught in a severe wind and hail storm that prevailed in that vicinity between four and six o'clock in the evening, while running at high speed was lifted from the rails. A gentleman, who has been at the scene of the disaster, described it as one of the most horrible railroad accidents ever seen. Every car in the train was completely wrecked, and almost literally shattered to pieces by the sudden stops caused by the train leaving the rails, burying the unfortunate passengers beneath the debris, killing many and injuring nearly every person aboard. The gentleman stated that nine dead bodies have been taken from the ruins, and a large number of those who were seriously injured have been removed to Rochester and Owatonna. At the time he left, the work of extricating the unfortunate victims was still progressing. The number of killed will reach a score.

Young men or middle aged ones, suffering from nervous debility and kindred weaknesses should send three stamps for Part VII of World's Dispensary Medical Series of books. Address World's Dispensary Medical Association, Buffalo, N. Y.

## Railroad Accident.

MEMPHIS, August 22.—The west-bound passenger train on the Memphis and Little Rock, which left here at 5 o'clock yesterday afternoon, met with an accident last night four miles west of Forest City, Arkansas. While crossing a short trestle, a broken rail caused two second-class passenger coaches, baggage, and express cars to go through the trestle, killing J. B. Salner, Harry Feldburg, two merchants of Cotton Plant, Ark., and John Adair, formerly foreman of the pile drivers of the Little Rock Road; James White, a stock agent of the Memphis and Charleston Railroad had a leg broken. Several other passengers received injuries but not of a serious nature. The east-bound train due here last night at 10 o'clock did not arrive until 11 o'clock this morning.

## Yellow Fever.

WASHINGTON, August 22.—The result of the house inspection ordered by Surgeon General Hamilton at Pensacola, which commenced this morning, was the finding of two cases of yellow fever in a sailors' boarding house on Palafox Street wharf. The Surgeon General directed the patients to be removed to the quarantine hospital on Santa Rosa Island. The bedding and clothing were destroyed, and the house fumigated and surrounded by a guard. Some cases were reported by Acting Assistant Surgeon White to-day, and a boat was immediately chartered by the Collector of Customs, and the cases removed to the quarantine hospital according to orders.

## Destructive Wind Storm.

MILWAUKEE, August 22.—Dispatches from the northern and central part of the State report great damage from the storm of last night. At Stevens Point and in Wood County crops, fences, buildings, and mill dams were torn to pieces. An old man in Wood County was injured by the flying debris. The towns of Stockton and New Hope were visited by a terrible hail storm, and the corn, oats, and hops were badly damaged. Live stock was killed at several points by flying rails. In Bowen County, in and around Green-bay, the rain and hail did similar damage.

## Forest Fires.

MILWAUKEE, August 22.—An Ashland dispatch says: Forest fires have been raging about the city all day, and the place had a narrow escape from destruction. The mills shut down, and the men turned out in gangs to fight the flames. The Omaha depot caught fire several times, but was saved. A hundred men were sent on an Omaha gravel train and were distributed along the border of the town with citizens. At 9 p. m. a shower came up and the fire was extinguished.

No catch-penny; read the advertisement of Simmons Liver Regulator.

## Tobacco Decisions.

The tobacco division of the Internal Revenue Bureau has made several interesting decisions in regard to the sale of tobacco and cigars. A dealer who does business on Fair grounds must have his special tax stamp affixed to his stand, and cannot send out persons to sell away from it without providing each such pedler with a separate stamp. Collector Roesta of Illinois has been informed, in response to an inquiry, that a manufacturer can not pack tobacco in any but lawfully prescribed packages for gratuitous distribution; but in case of delay in such repacking, evidence of its having been taken from duly stamped packages may be required. Some anxiety has been expressed by manufacturers whose districts have been changed under the consolidation scheme in regard to their being required to give bond. The trade generally has been rendered quite unsettled by uncertainty arising in regard to this question, and in response to an inquiry, the Commissioner has had a circular-letter addressed to the Collectors in several districts interested. The following is the effect of this letter: It is not necessary to require a new bond to be filed by a cigar manufacturer if his present bond is good and sufficient, and neither the law nor the regulations require more than one surety to such a bond after a cigar manufacturer has properly qualified by giving a good and sufficient bond and paying a special tax. It is not deemed good policy to require a new bond or to interfere with legal right to manufacture unless there is reason to believe that his present bond has become defective or inefficient. Comptroller Lawrence has rendered a decision to the effect that no claims for rebate on tobacco, cigar or cigarette stamps presented after June 30, 1883, can be entertained. He holds that the sixty days' grace granted from date, May 1st, that the law went into effect, expired on June 30th, and that any holders of stamps who neglected to present their claims until after that date must lose their benefits under the law. A large number were received from distant districts, and the senders have been notified that their claims can not be allowed.

## Railroad Accident.

STRUTHERS, O. August 21.—By the neglect of some one the switch at the east end of the Pittsburgh and Lake Erie yard at Hazelton, two miles east of Youngstown, O., a passenger train due at Youngstown from Pittsburgh at 11:30 A. M. ran into the rear end of a freight standing on the main track and telescoped the caboose and ploughed through a coke car completely demolishing both cars and badly wrecking the passenger engine. The train was running at the rate of thirty miles an hour. The engineer reversed the lever, stood by the throttle, and came out of the wreck miraculously, not receiving a scratch. The fireman jumped, and was badly bruised and cut about the face, hands, and body, but his injuries are not fatal. Wm. Johnson, an Express Messenger, was considerably bruised and his right arm sprained. Charles Walsh, a brakeman, was also severely injured. The train took fire but was extinguished with buckets by the passengers. There were about one hundred passengers on the train, but none were injured.

## "Woman and Her Diseases"

Is the title of an interesting treatise (96 pages) sent, postpaid, for three stamps. Address World's Dispensary Medical Association, Buffalo, N. Y.

## The French in Tonquin.

LONDON, August 23.—The Times correspondent at Hong Kong, referring to the movement of the French at Tonquin, says the enemy are mainly composed of Chinese, and are armed with Remington rifles. General Bouet commanded the left column of French troops, and it is believed the enemy's loss was small. The French doctors complain of the want of medicine and stores. The operations of the French have been stopped for the present, the number of troops being insufficient to attack Sontag and Bacrin, which are the strongest positions in the Delta. The repulse of the French disheartened them and encouraged the enemy. Four thousand native Christians are being armed. It is generally admitted that the French will require a force of 10,000 men to be able to cope with the enemy successfully, and the number of gunboats are also inadequate. The 500 coolies, who accompanied the French column as carriers, fled at the first shot. It is stated that the enemy has entrenched, one behind another, over a whole twenty-five miles between Hanoi and Sontag, but it is thought that the floods have destroyed many. The black flag has been strongly re-enforced from Yunnan. No Arramese participated in fighting. The Times says that the capture of Haidoung is of some importance, as it gives the French complete command of the Songchi canal, which is the most convenient approach to Hanoi.

## A Railroad Riot.

PITTSBURGH, Aug. 22.—A Punkstutawney, Jefferson County, special says: During the paying off of some railroad hands yesterday a dispute arose about a wager which culminated in a riot in which a Hungarian named Peter Yeder was killed and two fellow-workmen were shot, and Tom Kearney, an Irishman, was unmercifully beaten. No arrests have been made, but Sheriff Anderson and a posse are on hand and will probably make some arrests to-day. No further trouble is anticipated.

## Shot for Indecent Conduct.

TROY, N. Y., August 23.—Dr T. R. Hendersen was fatally shot to-day by Charles Osterhaut at Hossick Falls. It is charged by Osterhaut's wife that indecent conduct toward her by the wounded man was the cause.

## New Cotton.

COLUMBIA, S. C., August 22.—The first bale of new cotton was received yesterday from Simon Hook of Lexington. Weight, 467 pounds; class, middling; sold for 95 cents.

A specific, and the only one too for all forms and types of skin disease, is known the world over as Dr. Benson's Skin Cure. It is not a patent medicine, but a reliable, certain remedy. Druggists.

## U. S. COURT DECREEES

— IN —

## FAVOR OF J. H. ZEILIN &amp; CO.

The Court ordered, adjudged and decreed that the said Defendants and their agents be and they hereby are perpetually enjoined and restrained from using or causing to be used upon any bottles or packages of Liver Medicine any Label or Wrapper of a resemblance or imitation of the said Label and Wrapper of the Complainers, or any Label or Wrapper in resemblance or imitation thereof, and from making, selling, or offering for sale any medicine under the name or title of Dr. A. Q. Simmons Liver Medicine, or of Dr. Simmons Liver Regulator or Medicine, or Dr. A. Q. Simmons Liver Regulator or Medicine, and from using the name or word Simmons or the fac simile signature of A. Q. Simmons, or in any way upon any bottle or packages of Liver Medicine or of medicine made or advertised or sold for the Liver.

## AN OUTRAGE.

Owing to the great popularity of Simmons Liver Regulator and its undoubted curative power, imitators throughout the country are manufacturing worthless imitations under the shadow of its good name, so garbled as to mislead those who are not on their guard. We most earnestly beg the public to aid us in our efforts to protect their health and help us in our task of bringing these unprincipled imposters to the Bar of Justice. Buy no Simmons Liver Regulator unless enclosed in a Wrapper having a large red Z in the center and the signature of J. H. Zeilin & Co. on the side. Before you buy, scrutinize the package most carefully for the above signs of genuineness. The remedy to detect fraud is in your own hands. Do not allow some other substitute to be palmed off under a similar sounding name.

## 'TIS DANGEROUS

To trifle with health, to risk breaking down a constitution or undermine strength by experimenting with medicine that is doubtful or cheap, made by adventurers, especially that made as substitute for other medicine which is of great reputation, and recommended after years of trial by such reliable people as Bishop Pierce, Hon. Alexander H. Stephens, Hon. John Gill Shorter, Bishop Beckwith, Hon. John B. Gordon, and hosts of others of such high integrity and undoubted intelligence who would not deceive. They who copy, imitate, substitute or deceive, are guilty of crime. The law of the land has decided that the only Simmons Liver Regulator or Medicine legitimately made and legally entitled to name and fame is that manufactured by J. H. Zeilin & Co.; all others are frauds and counterfeits.

## Accident on the L. and N. Railroad.

LOUISVILLE, August 24.—At 8 o'clock this morning passenger train No. 2 from Nashville to Louisville at Lebanon Junction, about twenty-five miles out from this city, came in collision with the rear end of a freight train that was backing onto a side track. The freight was heavily loaded and the engine recoiled, telescoping the tender and baggage car. No passengers were injured, but Engineer Clarence Gifford was badly crushed and will probably die. Fireman Kidd also received serious injuries. The wreck causes the delay of trains.

## Frozen Mutton.

LONDON, August 24.—The Steamer Iona from New Zealand, via the Straits of Magellan, arrived at Plymouth with 13,000 frozen carcasses of sheep in good condition. She made the voyage in 45 days.

## GRAND

## Double Train EXCURSION

TO

WASHINGTON,

BALTIMORE,

HARPER'S FERRY.

LURAY CAVERNS,

MT. VERNON,

FORTRESS MONROE,

OLD POINT COMFORT

AND OTHER POINTS OF

Scenic and Historic Interest

FROM CINCINNATI

— OVER —

Cin., Wash. and Baltimore

AND

Picturesque B. &amp; O.

At the Remarkably Low Rate of

Half Fare,

Or one regular fare for the Round Trip from Cincinnati to Baltimore and Return,

SEPTEMBER 10th.

First Train leaving Cincinnati at 9:15 in the morning.

Second Train leaving Cincinnati at 8:00 in the evening.

These trains departing from Cincinnati at such hours as to enable direct connection with all trains from the

SOUTH AND SOUTHWEST.

NO CHANGE OF CARS

OF ANY CLASS

FROM

Cincinnati to Washington

and Baltimore.

ELEGANT NEW DAY COACHES,

Magnificent Palace Sleeping Cars,

SUPERB NEW DINING CARS.

2 ROYAL TRAINS

AND

LIGHTNING TIME.

The Cincinnati, Washington and Baltimore and Baltimore and Ohio Companies have determined to make these double trains the grandest Excursion event in railroad annals, and to this end will call into play all the enormous resources of their great systems.

The date of the Excursions is most happily timed, enabling all who participate to attend the remarkable series of

ORIOLE FESTIVITIES

AT BALTIMORE.

Embraced in the brilliant and unprecedented programme, is one night of Unparalleled

ELECTRICAL DISPLAYS

And another night of Wondrous

MYSTIC PAGEANTRY

NEVER EQUALED IN THE WORLD.

On the Electric Night, Lord Baltimore will arrive in the Harbor of Baltimore upon one of the finest steamers afloat, and which will literally be a blaze of electrical illumination. The Royal Steamer will be escorted by the harbor from sixty to eighty tug boats, four abreast, and each carrying electric lights in various colors. From all sides of the harbor fireworks in great profusion will be discharged from special barges stationed for such purpose, and the spectacle as a whole will be an unprecedented one.

Arriving in the city, Lord Baltimore, his Courtiers, Household and Officers will be escorted to the City Hall by a most novel Military Parade—a thousand soldiers covered with Electric Lights in different colors; horses with electrical plumes, and the whole city presenting a scene simply indescribable.

ON PAGEANT NIGHT,

Another remarkable spectacle will be witnessed, and effects produced never before attempted in any city of the world.

The parade will be the grandest in extent known in the history of mystic pageantry. The costumes, all entirely new, were made in Paris, and beyond all comparison the finest ever imported to this country. The unparalleled number of Forty Tailleur Flouts will be in line, and will be larger and more imposing in construction than ever before known. Some conception of the amazing extent of the pageant may be gathered from the fact that upwards of thirteen hundred men, two hundred and thirty horses, six bands, and six hundred carried lights are required to place it upon the streets.

No advance will be made in the usual rate for Hotel Accommodations, either in Baltimore or Washington, visitors being enabled to stop in either city, the Baltimore and Ohio running

FIFTY-MINUTE TRAINS

Between the two cities. Trains run at least every hour.

HARPER'S FERRY

Is directly upon the line of the B. &amp; O., only a little over two hours' run from Baltimore and one hour from Washington. The Old John Brown Fort still stands. As all the parades, displays and pageants at Baltimore take place at night, there will be abundant opportunities to visit Harper's Ferry.

OLD POINT COMFORT

AND

FORTRESS MONROE

Are but one night's sail from Baltimore or Washington on Magnificent Steamers. Excursionists choosing can take the Bay Line Steamers at Baltimore, witness the grand electrical and pyrotechnical display in the harbor, arrive at Old Point Comfort and Fortress Monroe early the following morning, spend the day and be back in Baltimore again bright and early on the morning of the night of the great Mystic Pageant.

MOUNT VERNON

Is but a few hours' ride on the historic Potomac from Washington. Splendid Steamers leaving every morning and returning during the afternoon.

LURAY CAVERNS,

The most famous of all the subterranean wonders of the country, are readily within a day's time from Washington or Baltimore. Special fast Excursion Trains making the round trip, with four hours at the caverns, which are now lighted throughout by Electricity.

WASHINGTON,

Ever a place of greatest interest to all, never looks more beautiful to the eye or offers more inducements for a visit than during the lovely weather always the rule in September. The B. &amp; O. is the only direct line from the West to Washington, and the only line running

FIFTY-MINUTE TRAINS

BETWEEN

Washington and Baltimore.

No such opportunity for a visit to the most attractive centers of interest in the East and South has been offered for years as this

Grand Double Train Trip.

Write for full details and all information as regards Sleeping Car and other accommodations to

# Woodland Park, Lexington Fair Week.

## GRAND GALA NIGHTS AUGUST 28th, 29th, 30th and 31st.

Music—Dancing on Platform, 90x50 feet.

Whitfield, the World-Renowned Humorist, Every Evening.

Mr. WHITFIELD has just concluded a 12 night engagement at the Highland House, Cincinnati, where thousands assembled nightly to witness his wonderful character delineations. AUGUST 30th and 31st, THURSDAY AND FRIDAY EVENINGS, MR. JAMES PAIN, Alexandria Palace, London, England, and Manhattan Beach New York, under the management of MR. BROADBENT, will repeat his wonderful

**FIREWORKS DISPLAY WITH AN ENTIRE NEW PROGRAMME.**

Four Thousand people witnessed MR. PAIN'S display at Woodland Park night of July 25th, and all join in saying, "It was the GRANDEST PYROTECHNICAL DISPLAY ever seen." MR. BROADBENT assures the public that a much grander display will be made AUGUST 30th and 31st. Admission, 25 Cents; Performance begins at 8:30 p. m.

### JOTTINGS.

Cincinnati Day.  
Be sure to take in the Opera.  
Floral Hall will be open to visitors at 10 o'clock.

The city will be full of guests from Cincinnati to-day.

The weather started off beautifully yesterday for the fair.

Ford's Opera Company is immense. Nobody can afford to miss it.

The street sprinklers were out bright and early yesterday and did their work finely.

A fire on the first day of the Fair was one of the attractions not put down on the programme.

The Sheriff of Carter County passed through the city yesterday with three prisoners for the penitentiary.

"Blue Beard" at the Opera House tonight. It is the most comical opera ever put on the boards. Be sure to go to see it.

There is much curiosity out this way to know what possible use the Cowboys could make of the Presidential party if they had it.

The programme of the fall meeting at Latonia, which is on September 15th, is regarded by turfmen as one of the most attractive announcements of the season.

The Lexington (Ky.) Fair begins tomorrow. It will be unusually attractive, with the trotting races an especial feature. There are several trotters of note in the stables, all in splendid condition.—[Covington Commonwealth.]

### Georgetown Items.

Rev. N. C. Morrison, of Louisville, preached in the M. E. Church on Sunday. After the sermon \$700 was raised by subscription. This will pay in full the balance due on the recent repairing of the church building.

### Cyclone

Proved himself to be a first-class trotter on yesterday, winning the 2-27 trot in three straight heats, and beating the finest field that ever started here, and making two heats in 2:25. He is the property of Col. M. M. Clay, of Bourbon, and is by Caliban.

### Sent On.

Alabama Woods, the little colored girl who stole a purse and \$8 from Miss Katie Johnston Monday evening, was tried in the Recorder's Court yesterday and sent to the Workhouse for six months.

Dan Carter, for burglarizing the house of Mr. G. P. Ramsey last Thursday night, was held over for further trial.

### Death of Mr. Charles Innis.

Mr. Charles Innis, one of the most highly respected citizens of the county, died at his residence on the Russell Caves at nine o'clock yesterday morning in the 62d year of his age. The funeral services will take place at the family residence this morning at 10 o'clock. Friends of the family invited to attend.

### Rumored Turf Troubles.

The rumor comes from Lexington of a combination between the Lexington, Latonia and Chicago racing clubs, the object of which is to down the Louisville Jockey Club. There seems to be little known here about the matter, but in talking around among the turfites the reporter learned that last spring it was common talk about Lexington that Colonel Clark had been given the cold shoulder by the directors of the Latonia Association. The trouble between the association, as indicated by the rumor, is a matter of dates for the meeting.—[Louisville Post.]

According to the American Newspaper Catalogue of Edwin Alden & Bro., Cincinnati, Ohio, just published, containing over 800 pages, the total number of newspapers and magazines published in the United States and Canada is 13,186 (showing an increase over last year of 1,028). Total published in the United States 12,179; Canada 1,007. Published as follows: Dailies, 1,227; tri-weeklies, 71; semi-weeklies, 151; weeklies, 9,955; bi-weeklies, 23; semi-monthlies, 237; monthlies, 1,324; bi-monthlies, 12.

### The Fire Yesterday.

At 9 o'clock yesterday morning a fire broke out in the brick house on High Street, near Spring, owned by Adolph S. Ochs, of the Chattanooga Times, and occupied by two families—those of Robert Freeman and William Carter. The fire originated from Freeman's cooking stove in the second story, and soon spread, burning off the roof and damaging the building to the extent of \$500 or \$600. The house is insured in the Standard, of London, for \$2,000. Most of Freeman's and Carter's household effects were saved.

The flames spread to the adjoining house, owned by Squire L. L. Royalty, and occupied by J. P. Howard as a boarding house. The house is insured for \$1,000, and the loss will amount to probably \$300 or \$400. Mr. Howard's effects were removed without loss, except what was occasioned by rough handling. The fire department was promptly on hand at this fire, and did splendid work. They soon had the fire under control and prevented it from spreading.

Young or middle aged men suffering from nervous debility, loss of memory, premature old age, as the result of bad habits, should send three stamps for Part VII of Dime Series pamphlets. Address World's Dispensary Medical Association, Buffalo, N. Y.

### PERSONAL.

Mr. and Mrs. R. F. Walker, the Misses Walker and Mrs. Smith of Orange Court House, and Miss Wheeler of Hampton, Virginia, are the guests of Col. Darnaby of Georgetown.

Mr. John Broadbent, of England, pyrotechnist, is in the city, and is stopping at the Phoenix Hotel. He will superintend the magnificent fireworks display at Woodland Park on Thursday and Friday nights.

Among the prominent gentlemen present at the fair on yesterday we noticed Dr. McMillen of Paris; Bird Bryant of Jessamine; Wm. Ferguson of Bourbon; M. M. Clay of Bourbon; Wm. Lyle, Danville; W. H. Wilson, Cynthiana; Col. Jesse Woodford, Judge Beckner, Clark, and Col. Sam Gregg of Jessamine.

### Business Change.

The saloon formerly owned by Mr. Hancock, on Mill Street, has been purchased by Mr. P. J. Gorman. His genial brother Dan can be found behind the bar.

### Don't You Forget It.

The Transcript yesterday stated that Judge Jewell had gone to Frankfort the day before to get a pardon, but had failed. We learn, on the contrary, that instead of failing to get one pardon, Judge Jewell succeeded in getting about twenty.

### Decorate.

Several business men have followed our advice and decorated their premises. Now, let others follow. This morning is not too late, and if everybody will go to work, the city can be beautifully decorated before the Cincinnati and Covington people get in.

We notice the arrival of Mr. G. C. Henry, the stylish cutter of Louis & Gus Straus, who has been absent for the benefit of his health. Persons who know, say that Henry's cutting has never been equaled in Lexington. He requests us to say to his friends to call early to avoid the rush. His house is the only one who has a complete stock of new Fall goods.

Dr. Benson's Celery and Chamomile Pills contain no opium, quinine, or other harmful drug and are highly recommended for headache, neuralgia and nervousness. 50 cents at druggists.

### Confederate Reunion.

The following letter explains the action by the Kentucky Central Railroad. The Chesapeake and Ohio has also agreed to make a rate of two cents per mile from all stations to parties attending the Reunion:

H. McDowell, Esq., Cynthiana, Ky.:  
DEAR SIR: Yours of the 10th received. We will instruct our agent at Lexington to honor a certificate of attendance issued by the Secretary of the Reunion for return tickets at one cent per mile. Certificates to be void unless presented on or before September 7. Yours respectfully,  
C. L. Brown, G. P. and T. A.

Fortunate Chance of a Lieut. Chance, U. S. A.

Lieut. Josiah Chance of the 17th Regiment Infantry, U. S. Army, at the close of the late war, having served entirely through it, was commissioned in the regular service. Eleven years ago he was stationed at Bismarck, and here he has been ever since. Under his superintendence Camp Hancock was built, and the present Fort Lincoln. He shook hands with the gallant Custer when he left to march to death, and one of the first to fall over his sad fate fell from Lieut. Chance. At present he is at Lincoln, and no officer at the fort is held in better esteem than he. He drew \$30,000 in the July drawing of the Louisiana State Lottery, at a cost of \$2. Every Bismarcker knows him, and the Tribune heard but one expression: "Good! It couldn't have fallen to a better man." He says he will invest it in Dakota dirt, and will remain in the service. Through the Bismarck National Bank he drew on New Orleans for his \$30,000. Lieut. Chance held two-fifths of ticket No. 37,348. The ticket drew the capital prize of \$75,000.—[Bismarck (Dakota) Tribune, July 17.]

### MARKETS BY TELEGRAPH.

#### Produce Market.

CINCINNATI, August 28.

### CATARRH ELY'S

Cream Balm

has gained an enviable reputation wherever known, displacing all other preparations. An article of undoubted merit.

CURES

Cold in Head.

IS NOT A Liquid or Snuff.

Apply by the finger into the nostrils. It will absorb, effectually cleansing the nasal passages of catarrhal virus, causing healthy secretion. It allays inflammation, protects the membrane linings of the head from additional colds, completely breaks the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications.

A THOROUGH PREPARATION WITH CARE.

Unequaled for COLD IN THE HEAD, Headache and Deafness, or any kind of mucous membrane irritations. Send for circular. By mail, prepaid, 50c. a package stamps received. Sold by all wholesale and retail druggists.

aug14 ELY BROTHERS, Owego, N. Y.

### LOVELY COMPLEXIONS POSSIBLE TO ALL.

What Nature denies to many Art secures to all. Hagan's Magnolia Balm dispels every blemish, overcomes Redness, Freckles, Sallowness, Roughness, Tan, Eruptions and Blotches, and removes all evidences of heat and excitement. The Magnolia Balm imparts the most delicate and natural complexional tints—no detection being possible to the closest observation.

Under these circumstances a faulty complexion is little short of a crime. Magnolia Balm sold everywhere. Costs only 75 cents, with full directions.
